

GREAT HEAT WAVE GRIPS EASTERN CANADA AND U.S.

NO PRICE PLEDGED ON GRAIN

1930 Prairie Crop Will Not Have Provincial Backing, Say Premiers

Banks of Canada Carry Remainder of 1929 Crop Till Sold

Canadian Press
Toronto, Aug. 6.—That Canadian banks had promised to carry the unsold balance of the 1929 prairie wheat crop and that the arrangements were satisfactory were features of a statement made by Premier John Bracken of Manitoba following a conference here to-day between eight managers of leading banks and the Premiers of Manitoba, Alberta and Saskatchewan. Wheat Pool officials were also present at the conference.

Premier Bracken, when asked whether the governments of the prairie provinces would renounce the guarantee for the Pool to the banks, which expired August 1, said: "There has been no request made for guarantees on the new crop and it is not anticipated a new guarantee will be required."

SMALL AMOUNT UNSOLD
"The guarantees were to cover the whole 1929 crop and the only difficulty was through a small portion of it not having been delivered at the end of the crop year, July 31 last. It is concerning that portion we have been having a conference with the banks. The banks and the pools," he said, "are carrying on with respect to the balance of the 1929 crop exactly as they did prior to July 31."

JUDGES AND BARRISTERS ARE CROSSING OCEAN

Southampton, Eng., Aug. 6.—Eight judges and 125 lawyers who comprise the party of British representatives to attend the forthcoming conference of the Canadian and United States Bar Associations at Toronto and Chicago, are at sea today, having left here for Canada aboard the steamer Duchess of Atholl. Viscount Duncannon heads the judicial party. Attorney-General Sir William Jowitt and Sir John Simon are among the lawyers.

FREUD AWARDED GOETHE PRIZE

Vienna, Aug. 6.—Prof. Sigmund Freud, world famous psychiatrist and scientist, was informed to-day he had been awarded the Goethe Prize, the greatest scientific and literary distinction in Germany.

Airship R-100 to Make Toronto-Ottawa Trip

Expected Dirigible Will Fly Over Those Cities Before Leaving Montreal on Return Voyage to England

St. Hubert Airport, Quebec, Aug. 6.—The British dirigible R-100 will make a flight over Ottawa and Toronto, the date to be announced in the near future, according to an official statement issued here to-day.

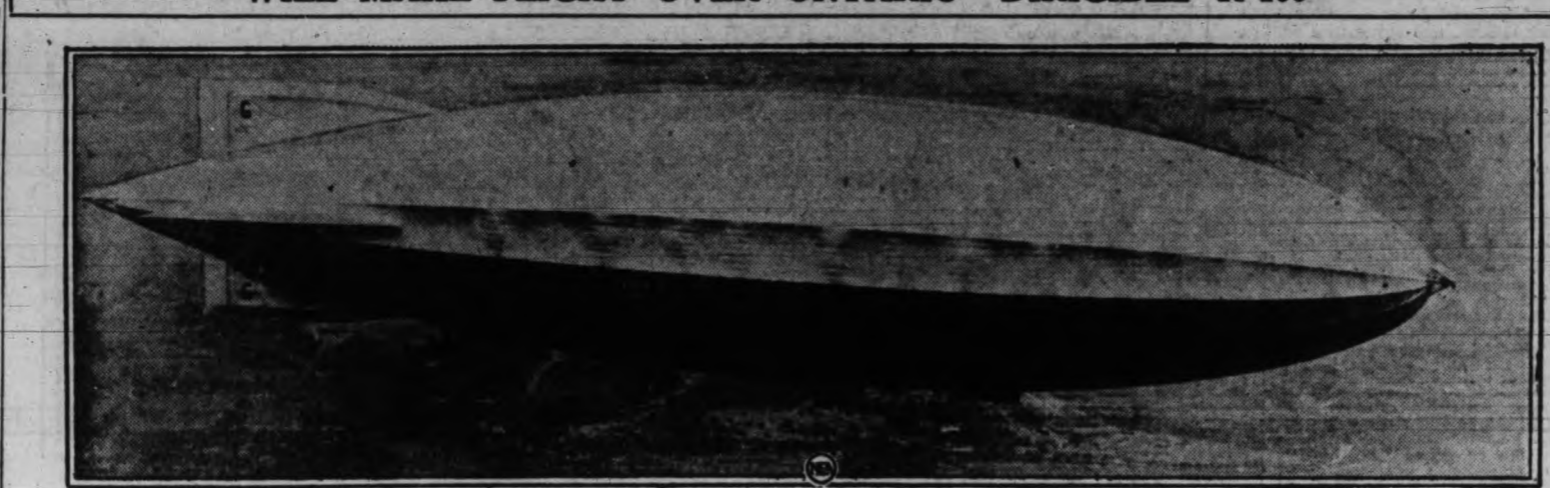

"Repairs to the R-100 are proceeding rapidly and it is expected they will be completed within the next forty-eight hours," said the statement. In the meantime there has been no alteration of plans as announced in the official press statement issued on August 4, which read in part: "The idea of a flight over Canadian territory before the return journey has not been abandoned, however, and it is hoped to combine the flight to Ottawa and Toronto into one and carry that out if reasonably favorable weather conditions should occur for the flight prior to the departure of the ship for England."

UNCERTAINTY ENDED
To-day's statement cleared up much uncertainty regarding the programme of the R-100. Originally it had been planned to make three separate Canadian flights over Ottawa, Toronto and Quebec.

Following the damage sustained by the ship near Father Point, Quebec, last Thursday, however, it was later announced the Quebec trip had been definitely cancelled, since that city had seen the R-100 during the day-time while it was en route up the St. Lawrence River.

Commander Colmore and Squadron Leader Booth returned from Ottawa by train to-day. They visited Lord Willington in the capital yesterday.

WILL MAKE FLIGHT OVER ONTARIO—DIRIGIBLE R-100

MAN DROWNED WHEN YACHT AT COWES SUNK

King, Aboard His Yacht, Sees Collision During Race and Rescue of Crew

Lucilla, 12-Metre Sloop, Sunk By Lulworth, Big Paton Cutter

Canadian Press
Cowes, Isle of Wight, Eng., Aug. 6.—A steward was drowned and a racing yacht, the Lucilla, owned by J. Lauriston Lewis, was sunk in a collision at the start of a Royal regatta event off here to-day. The King, aboard his yacht Britannia, witnessed the tragedy.

The Lucilla, manoeuvring with the twelve-metre boats for the gateway, was hit by A. A. Paton's big cutter, the Lulworth, and went to the bottom in three minutes. The Lulworth rescued the survivors of the Lucilla's crew.

When the crew of the Lucilla came ashore it was stated William Saunders, a steward, had lost his life.

The King's yacht, Britannia, at the time was leading in the race of the big yachts.

MOSCOW PAPER URGES AID FOR REDS IN CHINA

Moscow, Aug. 6.—Pravda, mouthpiece of the Communist Party of Russia, to-day sounded a clarion call to the proletarian masses and Communist parties throughout the world to support the Chinese revolution.

In each factory of enterprise and in every part of the world, the paper said, there should be established committees for the enforcing of "hands off the Chinese revolution."

POPULATION OF U.S. IS PUT AT 122,793,000

Census Also Shows 14,773,430 in Island Dependencies on April 2 Last

Washington, Aug. 6.—The continental United States had a population of 122,793,615 April 2 this year.

The first complete compilation of the nation's population was made possible to-day when a single township in Clearfield County, Pennsylvania, which had been missing, was reported.

The returns were compiled from official reports of the district supervisors throughout the country. The totals, however, are subject to revision in the census bureau's announcement, which is expected soon.

The nation's total population with its outlying possessions numbers 137,302,303 persons, as 14,773,430 occupy the various territories and island dependencies.

The total population increase in the forty-eight states and the District of Columbia in ten years was 17,018,999, the largest numerical growth of any decade in the country's history.

BRITAIN'S UNEMPLOYMENT

London, Aug. 5.—The government's unemployment report as of July 26 gave the total as 2,011,467, slightly more than a year ago, when the number was 1,857,398.

B.C. Federal Losses Are Chalked Against Tolmie Government

Remaking of Provincial Cabinet Urged by Some Conservatives as Protection Against Inevitable Overthrow of Administration Two Years Hence; Unpopularity of Party Shown by Vancouver's Swing to Liberalism.

Criticism from many sides, coming on top of the defeat administered to all Conservative candidates in Vancouver riding at the Federal polls last month has created food for serious thought in provincial government circles and reorganization of the Tolmie cabinet at an early date is being freely discussed, according to reports from the mainland.

In Vancouver friends of H. H. Stevens and other defeated Conservative members are openly blaming the unpopularity of the provincial Conservative administration for their setback.

It is reported Mr. Stevens himself declared he had not realized how strongly the tide of public opinion flowed against the Tolmie government until he was well into the campaign.

TOLMIE MAY LEAVE
There are rumors that Premier Tolmie himself will make the provincial field and return to the mainland. A general shake-up in the cabinet is seen as a move to bolster up the party's strength ready for provincial elections two years hence, in which defeat for the Tolmie government is forecast.

Col. Nelson Spencer is mentioned as a successor of Dr. Tolmie, while Leon J. Ladner, who fell in the Federal fight, has supporters who backed him for leadership at the famous Kamloops convention. W. J. Bowser still has his following in some sections.

LOOT OF BANK ROBBERS IS OVER \$2,000

Three Men Hold Up Staff in Oakville, Washington, and Escape

Oakville, Wash., Aug. 6.—Locking the cashier and a girl employee in the vault, two men held up the Oakville State Bank here shortly after it had opened to-day and escaped with between \$2,000 and \$3,500 in currency. The men disdained several hundred dollars in silver, which was lying with the currency in the vault.

A third man waited in a car outside the building.

McKinley Kane, the cashier, said the men entered the building about 9:10 and handed him a note saying "please remain quiet." Miss Elizabeth Wilcox was working in the vault at the time. Kane said the bandits told him to keep his hands down, although one of the men covered him with a gun.

SCREW DRIVER HANDY
He said they forced him into the vault, took the currency and shut the door. Kane opened it with a screw driver in about fifteen minutes, he said, and notified officers.

An auto answering the description of guards in the vicinity while officers of Olympia, Centrals and state highway patrolmen were on the roads looking for the car.

The one used by the bandits was reported near Rochester, but several hours later had not been seen.

The Oakville bank was robbed similarly two years ago.

Solo World Flier Crosses the U.S.

Akron, Ohio, Aug. 6.—Ted S. Lundgren, Hollywood aviator, who is attempting a round-the-world flight, was resting at a country club here while Roosevelt Field officials were anxiously reporting him two hours overdue there on a flight from Annapolis, Texas. He left the local airport at 5:55 a.m., E.S.T., to-day for Roosevelt Field.

Australian Flier Missing at Sea

Batavia, Java, Aug. 6.—A. T. Cunningham, Australian amateur aviator, who left Sydney August 1 on a solo flight to England in an attempt to beat Bert Hinkler's fifteen-day record, has not been reported since he left Wyndham, North Australia, for Bluna, at dawn yesterday.

The Wyndham-Bluna stage involves several hundred miles over sea, and is one of the most dangerous sections of the flight.

PLANE SPEEDS ACROSS U.S. ON BIG TEST

Frank Hawks Attempts New York-Los Angeles Fifteen-hour Record

Wichita, Kansas, Aug. 6.—Captain Frank Hawks arrived here from St. Louis at 11:33 o'clock, having made the trip in two hours and two minutes. He refueled his plane here and had lunch. He departed at 1:45 for Albuquerque, N.M., his next refueling stop.

St. Louis, Mo., Aug. 6.—Speeding westward in an attempt to set a New York-to-Los Angeles transcontinental record, Captain Frank M. Hawks landed at the Lambert-St. Louis Field from Columbus, Ohio, at 9:15 a.m. C.S.T. today. He refueled and took off at 9:30 for Wichita, Kansas.

REFUELED AT COLUMBUS

Columbus, Ohio, Aug. 6.—Captain Frank M. Hawks, attempting to establish an airplane record between New York and Los Angeles, arrived at Columbus at 7:48 a.m., today, two hours and forty-eight minutes after he had left Curtiss Field, New York. He refueled here and left for St. Louis, Mo. His next stop, at 9:04.

TAKES GOLF CLUBS

Curtiss Field, N.Y., Aug. 6.—Captain Frank M. Hawks, attempting to establish a record for a multiple-stop flight from New York to Los Angeles, took off at 5 a.m. E.S.T. for Los Angeles in an effort to set up a new trans-United States flight record.

He planned to reach Los Angeles in about fifteen hours, making three or more stops en route to refuel. He said he expected to reach his destination about 5 p.m. He wore his golf togs and carried a bag of clubs.

Captain Hawks holds the Atlantic-to-Pacific speed record for a non-stop flight which he made in 19 hours, 10 minutes and 32 seconds. There is no record for a multiple-stop flight such as he attempted today.

THOUSANDS OF CHILDREN AT VANCOUVER EXHIBITION

Vancouver, Aug. 6.—The Vancouver Exhibition, now popularly known as the Canada Pacific Exhibition, is celebrating its twenty-first birthday anniversary under most favorable auspices to-day. At 10 a.m. the gates at Hastings Park opened to admit several thousand cheering youngsters to help the organization at its coming-of-age party.

The care-free boys and girls were not so much concerned with the fact that the exhibition had reached its twenty-first milestone as they were with the knowledge that it was Kids' Day at the fair—the day on which the "Brother Billys" not only gave them free admission to the show, but also supplied them with innumerable refreshments, free rides and other entertainment dear to their hearts.

ROCKET IS EXPECTED TO BE SHOT UP SEVENTY-FIVE MILES

New York, Aug. 6.—Experiments in shooting rockets to great altitudes, financed by Daniel Guggenheim, will be carried on by Prof. Robert H. Goddard of Clark University, Worcester, Mass., at Roswell, New Mexico. That site was selected because of favorable atmospheric conditions.

Prof. Goddard has been conducting rocket experiments since 1912 with the aid of the Smithsonian Institution, Clark University and the Carnegie Institute. Guggenheim recently made a grant to permit further work.

At Roswell, small rockets will be sent up first and finally one capable of ascending from twenty to seventy-five miles will be sent up by gas propulsion and with parachutes to regulate the speed of the return journey. The rockets will carry thermometers, barometers, electrical measuring apparatus, air traps to collect samples of air at various altitudes, and other instruments.

Pending completion of preparatory work it cannot be announced how soon the work will begin at Roswell.

TWO SUDBURY MEN DIE IN FIRE IN HOUSE

Another Man Overcome By Smoke Revived By Firemen Using Pulmotor

Fourth Boarder Injured When He Leaps From Rooming House Window

Sudbury, Ont., Aug. 6.—In a fire which broke out about 4 o'clock this morning in a new wing under construction of the McAndrew rooming house on Station Street here, and spread to the older part of the building, J. Brandes, sixty-five, traveling acrobat of Montreal, and Robt. Arnold, fifty-five, lumberjack, were overcome by smoke and died before they could be reached.

Arthur Kepple, Franco-American, who had worked in lumber camps around Sudbury for years, was also overcome by smoke, but was revived by firemen with a pulmotor.

Robert Milmore was badly cut and bruised when he leaped out of a second story window, while William Gary, another roomer, was burned in attempting to escape.

(Concluded on Page 17)

AMY JOHNSON GIVEN CHEQUE FOR \$50,000

London, Aug. 6.—Amy Johnson, Britain's London-to-Australia flying heroine, made a triumphal progress through the streets of London to-day.

Britons anxious to see "Flying Amy" lined the streets.

The aviatix, whose personality charmed a dozen countries on her recent record air journey, went to a hotel where England's conquering youth of 1930, most of them girl celebrities, attended a welcoming luncheon and saw her receive a cheque for \$10,000 from The London Daily Mail, which, maintaining the traditions of Lord Northcliffe for fostering aviation, rewarded her for her success on the Australian hop.

WILLIAMS WINS CENTURY DASH IN FAST TIME

Olympic Sprint Champ Captures Exhibition Event at Toronto in 9-4-5 Seconds

Toronto, Aug. 6.—Marking his first appearance in Eastern Canada this year, Percy Williams, Olympic sprint champion, won the 100 yard exhibition race at the Dominion games to-day. The Vancouver marvel flashed over the 100 yards grass stretch in 9-4-5 seconds.

Johnny Fitzpatrick of the Hamilton Olympic Club, romped home in second place, with W. Boreau, Montreal, in third place. The Montrealer was permitted to enter the competition with five of Canada's most illustrious runners. Williams finished almost a yard in front of the Hamilton boy.

J. Cameron, New Westminster, B.C., scored a victory for the coast men when he tossed the 16-pound shot an inch over the forty-foot mark. A Stewart, Toronto, and E. Holmes, Toronto, finished second and third.

Election Recount In Quebec West

Quebec, Aug. 6.—Gerard La Roze, Federal Liberal candidate in Quebec West, has asked an official recount of the votes in the constituency. The recount will be held next Saturday.

Maurice Dupre, K.C., Conservative, was declared elected in Quebec West with a majority of ten votes.

Millions Swelter While Little Rain Is the Prediction

Ontario Reports Tell of Suffering During Heat Wave, Which Extends West to Rocky Mountains; United States Government Aids Measures of Relief for Farmers in Drought Areas.

CHINA URGED TO CRUSH BIG BANDIT GANGS

London Government Calls For Release of Two British Women Missionaries

London, Aug. 6.—The British government to-day made urgent representations to the Nanking government for the release of Miss Edith Nettleton and Miss E. J. Harrington, missionaries, being held for \$50,000 ransom.

It was Miss Nettleton, one of whose fingers was reported cut off and mailed in a letter demanding \$50,000.

Minister Lamson, in Peking, told the Chinese government to-day that if these brigand threats of further outrages were carried out the result would be a deplorable and disastrous reaction on public opinion throughout the world and the Chinese people and government would be disgraced.

Kingsford-Smith Expected Soon To Leave Hospital

Verre, Zealand, Holland, Aug. 6.—Wing Commander Charles Kingsford-Smith, famous aviator, has made such splendid progress after an operation for appendicitis that his physicians to-day said he would be able to leave the hospital within two weeks. He will cancel previous plans to make a solo plane flight from England to Australia.

(Concluded on Page 17)

Bennett Cabinet to Take Office To-morrow

POSSIBLES ARE REGISTERED BY VICTORIA SHOTS

Master-Gunner Collings and Pte. Grant Perform Well at Toronto Meet

Long Branch Rifle Ranges, Ont., Aug. 6.—Six marksmen, including Mr. J. N. Dow, of St. John, N.B., scored possibilities in the primary round of the first stage of the Lieutenant-Governor's match shoot-off this morning over the 300-yard range at the fifty-ninth annual meet of the Ontario Rifle Association.

TURKISH FORCES REPULSE KURDS

Istanbul, Aug. 6.—Five hundred Kurdish horsemen made a raid yesterday into Eastern Turkey from the desert regions of Syria, but were driven back by Turkish forces.

The Kurds now made attacks on three sections of the Turkish frontier, from Persia, Iraq and Syria.

CORN 2000 YEARS OLD IS FOUND IN OKLAHOMA CAVES

Oklahoma City, Okla., Aug. 6.—Discovery of ears of corn, probably 2000 years old but with grains intact, in the Cimarron County basketmakers' caves, was reported to-day by J. B. Thoburn, curator of the Oklahoma Historical Society and leader of an archaeological expedition.

Other recent finds include a small rhyolite hoe, filled with pumpkin seeds and a buffalo head moccasins for a right foot, lined on the inside with fur.

Winnipeg, Aug. 6.—Reports from points in the prairie provinces indicate the whole region from the Great Lakes to the Rocky Mountains still was in the grip of the big heat wave to-day.

Toronto, Aug. 6.—The rise of the sun this morning brought one more day to add to the week Ontario has suffered in a great heat wave. Weather probabilities gave no hint of relief for any part of the province, except for the southwestern counties between Lake Huron and Lake Erie, where thunderstorms were regarded "probable."

Rain, if it comes, will be beneficial to that region, where lack of moisture since June has had a bad effect on the late crops.

CROP LOSSES

Chicago, Aug. 6.—The centre of the heat wave apparently had shifted to the east to-day, leaving the citizens of the mid-continent section of the United States less uncomfortable but the crops still in danger.

Scattered showers and cooler winds brought some relief to middle westerners who had sweated in 90 and 100-degree temperatures for weeks. The rainfall was small in most cases, however, and not enough in itself to bring any real break in the drought.

The corn crop, already damaged to an alarming degree, was still in a precarious state in most districts being in no condition to withstand another stage of sun and wind.

WASHINGTON, D.C., AUG. 6.—The concentrated efforts of government agencies were bent to-day to the task of ascertaining accurately the needs of the drought-stricken districts of the United States.

While requests for relief were pouring in, the Department of Agriculture and the Farm Board, at the direction of President Hoover, engaged in determining both existing conditions and the measures to be taken to employ to assist the suffering agricultural states. The President expects a...

Allotment of Number of Portfolios Still Undecided, It Is Stated at Ottawa

Canadian Press
Ottawa, Aug. 6.—The general expectation here is that, following this afternoon's meeting of his cabinet, Premier King will announce the resignation of the Liberal Government.

TO-DAY'S MOVING DAY FOR THE MINISTERS OF THE OUTGOING ADMINISTRATION

To-day is moving day for the ministers of the outgoing administration and the unwonted spectacle of the ministerial offices, usually the last morn in neatness, glittered with packing cases, gives strength to the general belief that these offices will have new occupants to-morrow. The private and personal belongings of the ministers are being removed, to make way for other private and personal belongings of the newcomers.

BERNETT BUSY

When Hon. R. B. Bennett, Prime Minister-elect, will take office depends upon the expedition with which he can complete his cabinet slate. His offices in the Parliament Buildings were busy to-day, with Mr. Bennett receiving a large number of prospective ministers.

The meeting of the King cabinet this afternoon will be his last. A meeting of the Treasury Board was held this forenoon.

WESTERNERS IN OTTAWA

In view of the approaching session of Parliament, it is expected the present western ministers, Hon. Charles Stewart, Hon. W. R. Motherwell and Hon. Ian MacKenzie, will remain in Ottawa and will not return west for several weeks. Hon. C. A. Dunning, Minister of Finance, will, in all likelihood, stay in the capital for some time.

WORKWEEK OF FIVE DAYS IS DISCUSSED

Vancouver Labor Council Favors Plan, But Will Not Share in Conference

Canadian Press
Vancouver, Aug. 6.—According to sentiments expressed at a meeting of the Vancouver and New Westminster District Trades and Labor Council yesterday evening, that organization will remain steadfast in its refusal to join a conference which also includes a dual union. The matter arose out of an invitation sent by the Building and Construction Industries Association to send a committee to a conference to be held at which the five-day week would be discussed. The invitation outlined the many organizations that had been invited, which included practically every organized body in the city which would have any interest in the subject. It included the Vancouver All-Canadian Labor Council.

The Vancouver and New Westminster District Trades and Labor Council executive board recommended the building and construction body, a contractor organization, be informed the international organization had already gone on record in favor of the five-day week and therefore did not desire to participate in the coming conference.

A delegate suggested the letter should state definitely that the refusal to join the conference was because a dual organization had been invited. Other delegates voiced similar feelings but one arose and urged the conference be recognized. He declared, with heat, that if the Vancouver international labor body was refusing to attend the proposed conference because a dual organization had been invited, it was time to withdraw from the international body.

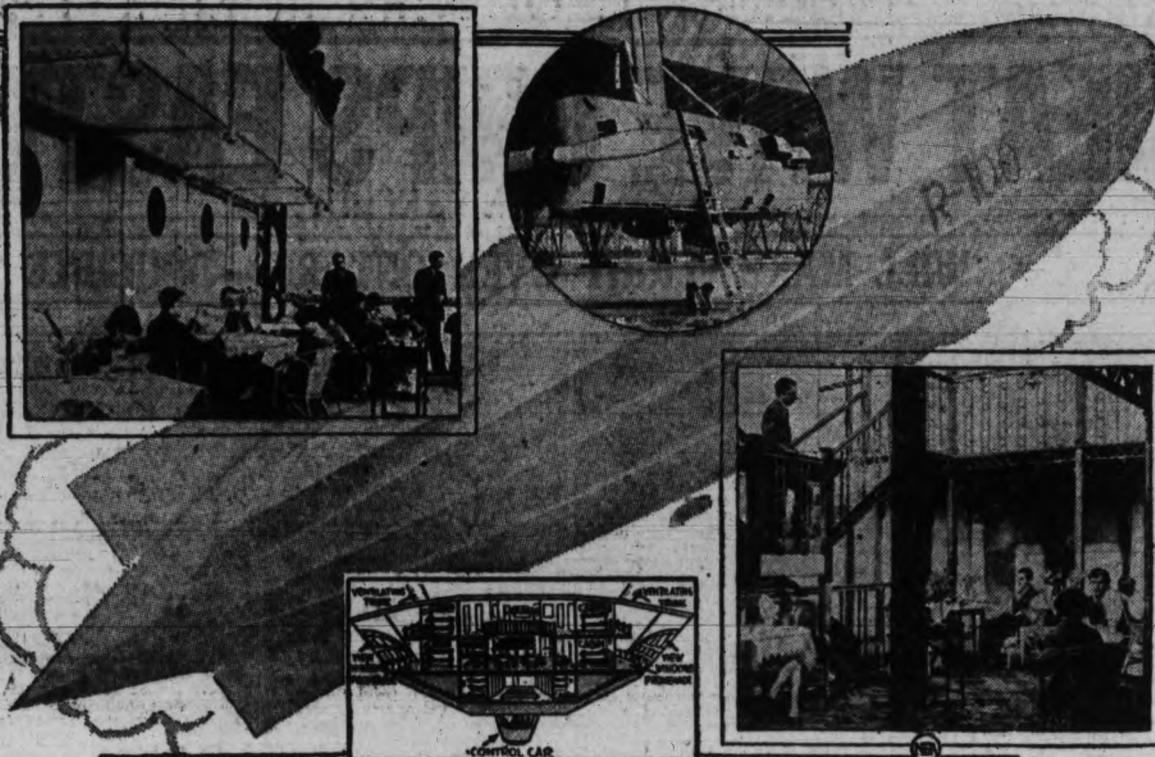

NO VOTE TAKEN

The Chairman, President C. McDonald, ordered him to withdraw such expressions. He refused, and was ordered out. He prepared to resist expulsion, but the excitement quieted down when the chairman refused to put to vote a motion to have the delegate removed.

The recommendation of the executive, refusing to join the conference, finally was passed. A request of blind broom workers for use of the big labor hall for a mass meeting, to protest against certain actions of the Canadian National Institute of the Blind, was not approved, the delegates feeling the time was not opportune. Deep sympathy, however, was voiced for the broom workers, and a motion was offered that the organization committee attempt to form them into a union. This was not carried, but is to be further considered, it is understood.

The building trades council reported progress in organizing millworkers. C.N.R. HOTEL WORK
A motion to wire Sir Henry Thornton and Tom Moore, urging that a five-day week policy be adopted in completion of construction on the Canadian National Hotel here was passed. This telegram is to be confirmed by letter. It was stated such a policy was in line with that of the Canadian National Railways at the present time.

PALATIAL PASSENGER QUARTERS OF DIRIGIBLE R-100

Above are shown parts of the "flying hotel," the British dirigible R-100, now at the St. Hubert airport, near Montreal. In the upper left is a "deck scene," while in the lower right is a glimpse of the main dining saloon. Above the latter is a picture of one of the motor gondolas which hang beneath the liner. The diagram shows a cross section of the passenger and crew quarters in which travelers and workmen are housed.

DRIVER FINED AFTER CRASH

A. Johnson Appears on Common Danger Charge as Result of Beach Drive Accident

Following an automobile accident last night in which two men narrowly escaped injury, Anton Johnson, 836 Broughton Street, was fined \$50 or ten days, in Oak Bay Police Court this morning for driving to the common danger.

The accident happened at 8:30 o'clock last night on Beach Drive, east of the bridge, when a car driven by Mr. Johnson and J. A. Sayward, 1311 Rockland Avenue, colliding. Mr. Johnson was driving north and Mr. Sayward was driving south. After colliding with the left side of Mr. Sayward's car, Mr. Johnson's car proceeded approximately 138 feet before it stopped, wrong side up. Mr. Johnson and his companion, George Johnson, 1024 Vancouver Street, were pinned under the overturned vehicle, and were extricated with Mr. Sayward's assistance.

Chief John Syme and Constable L. G. Clapard of the Oak Bay force visited the scene and arrested Mr. Johnson for driving to the common danger.

Crew Wins Fight With Forest Fire

Vancouver, Aug. 6.—Blowing up under a breeze off the bay, the fire which had been burning the last two days between Point Atkinson and Caulfield, caused by a crew of nearly sixty men to redouble their efforts last night. The outbreak was again under control this morning. It was reported there had been no damage other than burned timber and undergrowth on the hillside.

EXPERT REPORTS ON B.C. ROSES

Dr. C. Weiss of Washington Visits Saanichton Farm

The well-known authority upon diseases of ornamentals, Dr. C. Weiss of Washington, D.C., was a recent visitor at the Saanichton Experimental Farm. He was particularly interested in our studies of the disease of roses, "Infectious Chlorosis," which causes the foliage to become leathery and yellow, or mottled in appearance. Studies reveal that the rose stock, Manetti, is particularly susceptible, and Thornless Multiflora, is fortunately immune. The latter rose stock is commonly used in British Columbia. He supported the practice of B.C. nurserymen who are maintaining records of the blood lines of their root and scion rose stocks. He believes that the high standard of B.C. roses can be maintained, if the nurserymen will bud from and upon rose stocks whose history has shown them to be free from all signs of the disease which cause degeneration. Leathery, yellow or mottled foliage are signs of degeneration.

Dr. Weiss is in charge of the investigations of the United States Department of Agriculture, upon diseases of ornamentals. He is presently to cooperate with the Saanichton laboratory in the development of control measures for diseases affecting ornamentals in British Columbia.

U.S. Hoping To Change Rules In Davis Cup Play

New York, Aug. 6.—After three years of intensive training, campaigning and unsuccessful challenging for the Davis Cup, U. S. tennis officials indicated yesterday drastic changes in policy are under consideration.

As he stood on the pier awaiting the arrival of the U. S. team that returned from France empty-handed, Louis B. Bailey, of New York, president of the United States Lawn Tennis Association, said, if he has his way, next year's quest for the cup will be undertaken without the long months or arduous preparation now involved. Joseph W. Wear, chairman of the Davis Cup committee, said when at last the United States succeeds in recovering the trophy he favors holding the competition every two years instead of annually.

Wear said no such suggestion would be considered until the cup has been regained, as the French campaigned cheerfully year after year, before they finally attained their goal and now are entitled to defend it on the same basis.

Ashton Brothers Gain a Draw In U.S. Polo Debut

New York, Aug. 6.—The four Ashton brothers from Australia made their U. S. polo debut yesterday by holding the old Westbury four to a 5-5 tie in a six chukker practice match.

NEW YORK HIT HARD BY NEW U.S. TARIFF

Trade of Great Port Shows Serious Effects of Grundy Measure

Washington, Aug. 6.—The Grundy tariff has cost New York an average of nearly \$42,500,000 a month and there is no doubt this disastrous ratio is continuing, Senator Copeland (D., N. Y.) estimated today in a statement analyzing the Government's figures on the commerce of the New York district. The result of the legislation, which is characteristic lack of discrimination in fixing tariff rates, the New York Senator said, also has been to contribute generally to the distress arising from the business depression and prolong the period of industrial woe.

"I do not have to go farther than my own customs district of New York," Senator Copeland asserted, "to learn what the mere threat of the new tariff did to the trade of our greatest city. In 1928 there came into this district, imports amounting to \$1,950,000,000. In 1929 this record of imports advanced to \$2,152,716,000. The first four months of 1930, according to the figures of the Statistical Division of the Department of Commerce, brought \$747,568,000 in imports to the New York customs district.

Then the new Tariff Bill was introduced. By January 1 it was evident that the sky was to be the limit with Administration Senators and Representatives. During the first four months of this year, which is as far as the Government figures have been compiled, New York's record of imports dwindled to \$578,034,000. "In other words, this district alone shows a falling off from last year's figures, or the months of January, February, March and April of \$169,644,000. The Grundy tariff has cost New York an average of nearly \$42,500,000 a month."

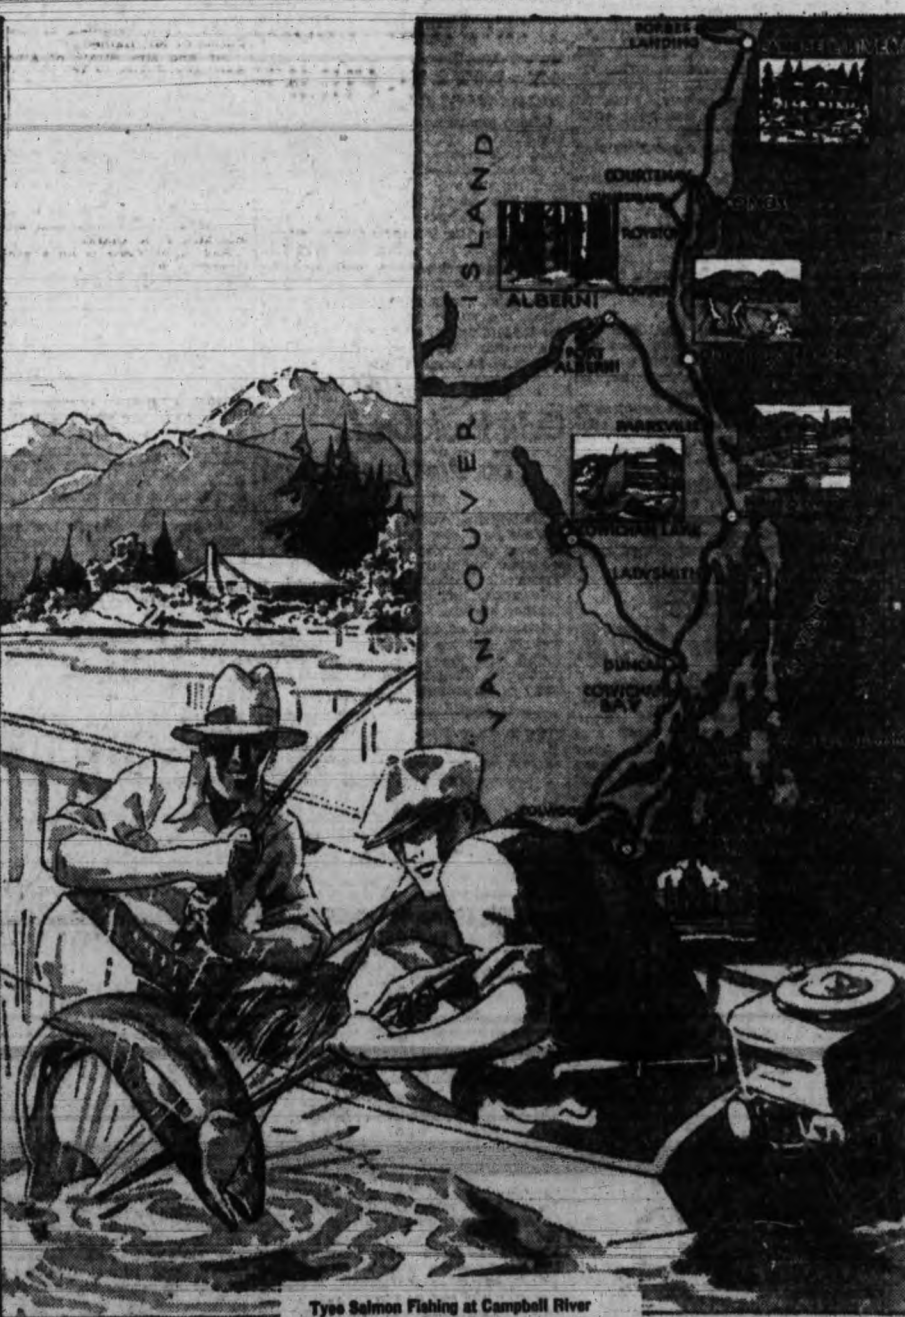

Calling attention to President Hoover's contention made in the campaign of 1928 that high tariffs do not tend to curtail imports, and that their falling off does not necessarily mean a corresponding diminution in sales abroad, Senator Copeland cited the statistics on the outgoing traffic at the Port of New York. He said:

"According to figures for January, February, March and April of 1929, we shipped out of this harbor \$23,556,000 worth of American merchandise for sale abroad. During the past four months there went out from the same port \$27,716,000 in American goods. Deducting the one from the other shows that our exports from this single port of the United States had diminished \$236,040,000. This means we lost \$42,500,000 a month in our import trade and nearly \$64,000,000 a month in our export trade in the face of the Tariff Bill, which, according to its advocates, was to stabilize business and end the distress of the Hoover panic."

FRANCE-ITALY TENSION STILL BIG PROBLEM

Proves Disturbing Factor as
League Assembly Session
Date Approaches

Geneva, Aug. 6.—The Franco-Italian disagreement on naval matters constitutes a disturbing cloud on the horizon of the League of Nations as the annual September Assembly of the League approaches.

While it is the fashion among European public men to accept the dictum that war in Europe is at present impossible, there are experienced observers who maintain every cloud in the international sky may be the forerunner of a destructive cyclone.

Authorities of the League secretariat as a matter of course have kept friction between the two continental powers whose representatives sit as permanent members of the League Council, but the development of lack of developments, in the situation, have been watched with real apprehension by all who have world peace at heart.

Anxiety became particularly intense in the period following the provincial speech-making tour of Premier Mussolini, and to speak without exaggeration—cold chills ran along the spines of the peace-loving inhabitants of Geneva.

The Franco-Italian difficulty is regarded in some quarters as a challenge to League action.

WHITE PRISONERS AND NEGROES AT NEW YORK FIGHT

New York, Aug. 6.—Eighteen prisoners were injured late yesterday in a riot between white men and negroes which began when negro prisoners on the recreation ground at Welfare Island in the East River here.

The trouble began Monday when white prisoners went to the field and found negroes using the diamond. Threats were exchanged, but guards were able to prevent violence.

Yesterday the negroes again got possession of the diamond and a general fight broke out, in which about 200 prisoners took part. Pending arrival of police emergency squads from Manhattan the fire department company on the island turned streams of water on the rioters in an attempt to stop the fight.

Shortly after the police had reached the island the riot subsided and the prisoners were herded back to their quarters. The emergency trucks then returned to Manhattan.

TWO DROWNED

Chehalis, Wash., Aug. 6.—Two persons, Venice Moore, sixteen, and James Palacios, thirty-five, who attempted to rescue her, were drowned in the Chehalis River near Ceres, seven miles southwest of here, late yesterday. Palacios went to the aid of the girl, who had apparently been seized with cramps, members of the swimming party said. She grasped him in a strangle hold which he was unable to break and took him down with her. Both bodies were recovered.

Cutten Gets Last Bandit Of Nine In Eight Years

**J. B. PATTULLO
DIES AT HOME
IN VANCOUVER**

Brother of British Columbia
Liberal Leader Succumbs
at Sixty

Vancouver, Aug. 6.—James Burieligh Pattullo, K.C., O.B.E., aged sixty, Vancouver barrister and brother of T. D. Pattullo, provincial Liberal leader, died at his home here yesterday evening.

He was the son of George B. Pattullo, Woodstock, Ont., where he was born. Studying law at Osgoode Hall, Toronto, he practiced in that city under the firm name of Holman & Pattullo. In 1908 he went to the Yukon and subsequently became Crown prosecutor in the Klondike, where he was made K.C.

Mr. Pattullo came to Vancouver in 1910. In the Great War he went overseas with the 72nd Seaforth Highlanders as paymaster.

He is survived by a widow, three brothers and four sisters. The brothers are T. D. Pattullo, George, the well-known writer, and Andrew. The sisters reside in eastern Canada.

FLIER DROWNED IN LAKE AFTER PLANE CRASHES

Parachutist Clings to Wrecked
Machine in Lake Ontario
and Is Rescued

Belleville, Ont., Aug. 6.—Gerry Pitton of Toronto, prominent aviator, was drowned in Lake Ontario while attempting to swim ashore from his plane, which had been forced down. Terry McGovern, parachute jumper, who accompanied Pitton, clung to the plane and was rescued in an exhausted condition.

Pitton was completing a return flight to Toronto when the plane was forced down a mile from shore. The engine dropped out when the plane hit the water. McGovern told his rescuers, and Pitton decided to swim for shore. A strong off-shore wind was blowing at the time and apparently proved too strong for the pilot, though he was reported to have been a strong swimmer.

Woman discovered the plight of the fliers and sounded the alarm. A boat was put on a car and taken seven miles to the scene. A number of men rowed out to the plane. McGovern was found clinging to the wing, exhausted and about to slide into the lake.

Pitton, who was known for his ability and daring, had been on a barnstorming tour with McGovern.

WARDNER LOSES IN FIRES; POLICE HUNT FOLLOWS

Cranbrook, B.C., Aug. 6.—A fire, thought to be of incendiary origin, early yesterday morning, destroyed five cottages, a schoolhouse and approximately 10,000,000 feet of lumber in the yards of the Crow's Nest Pass Lumber Company at Wardner.

The flames were discovered at 12:30 a.m. and in two of the five houses burned, people had to escape in night attire. The flames broke out at five different places, simultaneously, in two lumber piles, the schoolhouse and two dwellings.

Fire hose and pumps were brought into play by resident in a successful attempt to save the town from destruction.

A mill and planer were saved. Four of the five houses were owned by the Crow's Nest Lumber Company, and the loss in addition to about seventy-five per cent of lumber, was covered by insurance.

Police are at work on the case.

One Day in Jail For Man Who Shot Invader in House

Los Angeles, Aug. 6.—Sheilton W. Herrin, store clerk, was given one day in jail to-day for shooting a man he had found in the house with his wife.

The third angle of the triangle was John A. Quickel, who recovered from a bullet wound in the abdomen. Herrin was charged with assault with intent to murder, but was found guilty of simple assault.

"I sentence you to one day in the county jail," said Superior Judge Raglan Tuttle. "I want it understood there is no other guilty party in this case and that party is the woman. I feel most of the blame rests on her and I make a light sentence because I do not feel like putting any further responsibility on the man. People have no right to take the law into their own hands, but I cannot help but feel that in this case there was some justification."

MANSLAUGHTER VERDICT

Olympia, Wash., Aug. 6.—The conviction of George Turpin, Seattle youth adjudged guilty of manslaughter in connection with the death of Yee Yen, aged Chinaman, on Seattle on June 16, 1929, was affirmed by the State Supreme Court yesterday. Young Turpin was accused of striking Yen with his fists in a street fight near Third Avenue and Columbia Street. The Chinaman fell and struck his head on the pavement. He died from a fracture of the skull. Turpin contended he had struck Yen in self-defence and that death was by accident. The high court held the death unjustified.

Chicago, Aug. 6.—The last of the nine alleged bandits who held up Arthur W. Cutten and his family in a daring raid on his home near Downers Grove on the night of March 27, 1922, has walked into the office of the State's Attorney of Dupage County and surrendered.

He is Casper Rosenberg, trailed from the Atlantic to the Pacific by the manhunters employed by the big stock and grain operator.

"I am tired of it and I have been hunted long enough," Rosenberg explained. "I am innocent and I can prove it."

Three months ago Simon Rosenberg, a brother, was captured and pleaded guilty.

"I am going to run these men down if it takes every dollar I have," said Cutten the day after the robbery. "They locked me in a vault and I was suffocating to death when I was released. They treated my wife brutally. I will get them and they will pay for it."

He was relentless in the hunt. One by one the robbers were run down. It cost Mr. Cutten at least \$20,000 to bring in the gang. Private and public detectives, sheriffs, constables and prosecuting attorneys in a score of States took part in the roundup.

Seven men are in prison, one turned State's evidence and Casper Rosenberg awaits trial September 4 under \$13,000 bond.

The plunder seized by the robbers totaled about \$20,000.

A necklace and diamond rings valued at \$15,000 were stolen from Mrs. Cutten. Almost all the silverware in the house was taken, besides nine cases of old whiskey. The plot to rob the home, a show place in Dupage County, developed in the brain of Joseph Vornitaga, a former butler. He turned State's evidence and accused John Cude, Gus Kaswell, Joseph Cornelissen, John Kimmino, John Owilinsky, Simon Rosenberg, Casper Rosenberg and Joseph Rello.

They drove up to the country home in two automobiles and overpowered servants with guns.

"I wouldn't have cared so much," commented Cutten later, "if they had treated me and my wife with any sort of consideration. They tied us up and locked us in basement vaults which no air could enter."

"It was then I determined that no matter how long a time or how much money was required, I would send them to prison."

For eight years Mr. Cutten never forgot his oath of vengeance. His success at man-hunting he regards as the greatest of his life. He turned a successful operation in stocks or commodities.

Mrs. J. E. McDonald and children of Victoria, visited friends here Sunday.

POLITICAL TRUCE FOR CONFERENCE

Wellington, N.Z., Aug. 6.—Premier G. W. Forbes, who succeeded to the mantle of the late Sir Joseph Ward, will not leave for the Imperial Conference in London this autumn without first securing an agreement from the leader of the official opposition and the Labour Party that his Government will not be overthrown during his absence.

He made that announcement yesterday.

Mrs. Forbes declared controversial matters would, as far as possible, be disposed of before his departure.

The Government has been in power since 1928 largely by the aid of independents. The strong and much respected personality of Sir Joseph Ward, New Zealand's veteran statesman, who died a few weeks ago, was credited largely with keeping his party in power.

U.S. POPULATION

Washington, Aug. 6.—The population of the continental United States on the basis of official preliminary census figures is 122,728,672.

EFFECT OF HEAT ON CROPS VARIES ON PRAIRIES

Wheat Near Regina Said to
Have Suffered; Crops Un-
harmed at Calgary

Regina, Sask., Aug. 6.—The extremely hot weather of the last few weeks has adversely affected crops throughout central Saskatchewan. From east of Regina to Herbert and in wide areas north and south of this line, crops are reported to be in poor condition, due to lack of moisture. Crops outside of these districts are stated to be in fairly good shape.

Saskatoon, Sask., Aug. 6.—The heat wave continues in northern Saskatchewan, but in the majority of districts, where satisfactory moisture conditions prevailed, the crops are standing up well under the bleaching sun and give promise of fair to good returns. The mercury soared to 93 degrees in Saskatoon yesterday.

Calgary, Alta., Aug. 6.—Heat has been prevalent in this district for a number of days, but without detriment to the grain crop, which is near the harvesting point, and requires heat to ripen. Showers on Saturday and Sunday aided pastures and gardens.

Edmonton, Alta., Aug. 6.—With the temperature hovering around 80, little relief from the recent heat wave was afforded here. A cool wind, followed by a spattering of rain, cooled off the city somewhat, but following another scorching day, little benefit will be derived from the moisture received.

SOVIET-ITALY TRADE TREATY FINDS FAVOR

State Russian Imports From
Italy Will Be Doubled in
Next Year

Rome, Aug. 6.—The commercial treaty between Italy and the Soviet Government which was signed here Monday has found much favor with the Italian business community.

The pact not only consolidates the commercial relations which have been built up in the last two years, but sets up conditions favorable for an intensive development of the economic relations of the future.

Assistant Commissioner Liubimoff of the Soviet Foreign Trade Bureau, who signed the agreement for Russia, in an interview told newspapermen Russian purchases in Italy had increased one-half last year and would be doubled in the next twelve months because of the terms of the treaty.

Liubimoff indicated the chartering of Italian ships by Russia has doubled in a year. He said there was an urgent need in Italy for Soviet merchandise. He declared the industrialization of the Soviet Union as forecast by the five-year plan was being realized rapidly and thus far this year production of industries had reached 180 per cent of the pre-war level.

The Soviet agent asserted that Russia needed to buy an ever-increasing quantity of machinery and industrial products abroad. He declared:

"The hostile activity of certain countries against our commercial operations cannot in any way thwart the rapid development of our socialist economy. Such activity can only damage the interests of the countries permitting it."

TO START WELL IN RED COULEE

Vancouver, B.C., Aug. 6.—Edward G. Fisher, vice-president of the Altamont Oil Co. Ltd., and E. P. Brewer, secretary-treasurer, expect to leave Vancouver for the Red Coulee field early next week in order to supervise the rigging-up of Altamont No. 1 in the border field, according to official announcement made here today.

Altamont No. 1 is situated in Section 28, Township 1, Range 1, in the Red Coulee field and is on part of the holdings acquired by the company recently, from Coast to Coast Holding Company. Camp buildings have all been completed and machinery and derrick timbers are on the ground, say reports from the field.

Mr. Fisher stated that he plans to stay in the field until the well is spudded in, probably in two weeks' time.

EARTH SHOCKS IN PERU

Lima, Peru, Aug. 6.—Strong earth tremors were felt here at 12:40 p.m. yesterday. No damage was done, but the populace became panic-stricken and scurried to streets, squares and other open spaces.

ONE DEPRESSION-PROOF INDUSTRY

THE CANADIAN CUSTOMS FIGURES

Issued yesterday showing an increase of 3,664 persons and forty-five cars in the incoming tourist trade to Victoria so far this year, as compared with the corresponding date of last year, indicate that the tourist industry on this coast is one industry that even continent-wide depression cannot depress.

Since the war, one of the features of business development has been the steady year-by-year increase in the volume of tourist travel into Canada with the balance of trade in this industry turning preponderantly in Canada's favor. In the years between 1909 and 1913, according to the Dominion Bureau of Statistics compilations, Canadians touring abroad spent an average of \$3,000,000 a year more than tourist from other countries visiting Canada. However, between 1924 and 1928—although Canadians have themselves become greater spenders abroad—tourists to Canada spent an average of \$120,000,000 a year more than Canadians who went outside. The latest figures for 1929 place the credit balance on tourist trade in Canada's favor at \$188,000,000 for the year.

Tourist travel has become one of our great industries and has been an important factor in Canada's prosperity since the war, its effect being felt in practically every line of business. Its stimulation, especially in the course of a quiet business year such as this, leads one to recall by way of contrast the ridicule which met the efforts of the early pioneers in establishing the tourist trade in other parts of the country, as well as right here in Victoria. We do not now hear of even the most chronic kickers belittling this vitalizing flow of travel.

THAT \$1,000,000 SALARY

THE SLIGHTLY WORRIED INDIVIDUAL who lies awake at night wondering how he can boost his salary can be pardoned, probably, if he takes a keen, envious interest in the salary enjoyed by Mr. Eugene Grace, president of Bethlehem Steel. Grace, according to published figures, draws \$12,000 a year. That alone is not startling, as industrialists pay cheques go, although it would look like riches to ninety per cent of his fellow citizens. But in addition he has a sort of sliding scale percentage arrangement, by which his annual salary runs up to something in excess of \$1,000,000—and that, from any angle, is a great deal of money.

Indeed, it is so much money that some prominent people have been wondering, in print, if any executive can possibly be worth it. It has been suggested that no man's services, under any circumstances, can deserve such pay; that Grace, in short, is getting too much money.

No one except a stockholder in Bethlehem Steel will worry very greatly about it; and in a general way it may be said that ambitious corporations are not in the habit of paying out money without getting full value for it. If Bethlehem's directors feel that their president earns such a salary, that would seem to settle it.

However, those who fear that wealth is tending to concentrate in the hands of a few people will probably find an ominous portent in this Grace salary. Grace may be worth a million a year to Bethlehem Steel; but is it to the best interest of the country to have such enormous salaries paid to single individuals?

If you set out to answer that question you probably would be discussing socialism before you got through. Without going into that phase of it, it seems safe to say that under our present economic system million-dollar salaries, while exceptional, are not miracles.

A clever stock manipulator, for instance, can make more than a million dollars a year—and can do it without producing anything of value to anyone, simply by juggling trading accounts; by gambling, in plain English.

A heavily press-agented movie star can make very close to that sum—and be an empty-headed, shallow-souled moron into the bargain.

A heavyweight prize fighter, if conditions are right, can do it.

An unscrupulous racketeer in a big city can get his million a year—and remove a number of his fellow citizens from circulation while he is doing it.

The industrialist, like Grace, is at least giving his country something. He is producing things—turning out a definite product in return for his salary and providing employment for thousands and adding to the general prosperity of the country.

THOSE MIXED BABIES

MR. AND MRS. BAMBERGER AND MR. and Mrs. Watkins of Chicago wish that there was some way that parents could tell their own children.

They cannot do it. And all the king's horses and all the king's men are not having one-half the luck in helping them solve this baby mixup that King Solomon had when he tried to divide one baby between two women.

Physicians, an ophthalmologist, an obstetrician, an anthropologist, a psychiatrist and some more scientists with names just as long have been in conclave with the two children, trying to decide. Even they cannot agree.

You will recall that the mixup started when the Watkins family discovered a piece of adhesive tape bearing the name of Bamberger on the body of the

baby whom they had brought home from the hospital. They agreed that the infant they had was a very nice child. Had it not almost been theirs? But they preferred to rear their own.

The Bambergers felt the same way about it. And the hospital thought that maybe the tapes had been mixed.

It really should be simple. There is a perfectly healthy, round, contented baby for each family. The two families could draw lots and probably be just as far ahead as they are now. Since the children can not tell their own names, and will speak the ones chosen for them anyway, when they do, they cannot help. Nobody would ever know the difference if the wrong lots were drawn. Nobody, not even the parents.

The child which was taken by the Bambergers seems to be claimed by each set of parents regardless of the diversified advice of the sages.

But both families cannot have it. Somebody has to accept the other one, and there is sufficient proof that it is bone of the bone and flesh of the flesh of one or the other set of parents.

If it were merely the care of the infant—seeing that it had the proper amount of spinach and orange juice and slept and drank its milk at the regular hours—the problem would not be so important.

But one or the other of the two babies may develop into a prodigy. He may even be president. And so long as there is an uncertainty of parentage and a belief in heredity, the parents that did not get him would ponder if, perhaps it was not their son who was bringing honor to another family.

Then, too, the children might grow to look like their parents and if they were not in the right families there would be much disturbance if one father saw the other father walking along the street with a boy who was his own counterpart. A trade at that time might be sure but it would be embarrassing.

Nothing in life is so divinely close to a miracle as the birth of a little child, and the realization of its parents that there is something of themselves in this new life. Viewed in that light, the confessed attempts to decide to whom the two babies belong assumes an air of tragedy. Each family has a right to its own child, and to the absolute, irrevocable proof that it has its own.

Meantime, the world waits for a greater sage than Solomon to solve this mystery.

CRUELTY TO ANIMALS

STORIES OF DOGS LYING SHIVERING

IN the rain, or crying plaintively under the stars, hugging the slim green ground which held one whom they idolized, took up a good many pages in the old school reading books. Children read them, learning not only the pronunciation of words, but the meaning of loyalty. And dogs are really loyal—more than one has given his life for his master.

We wonder if the man in a distant city who prepared a terrible punishment for a dog the other day knew this. Apparently he did not. He kept on throwing more and more dirt into a hole where he had placed the little animal. He packed it harder and harder, until finally the dog was covered, and he could not see the eyes. Just the nose was left above the ground.

Then the man went away. Neighbors, hearing the dog's cries, came, found the nose, and dug the animal out. The dog had been digging holes in his yard, the owner explained. He had cured other puppies of this habit by burying them in the ground for a time, noses exposed so they could breathe. He was merely trying the same method of punishment and training with this puppy.

It is a little difficult to realize that there are people in the world who still viciously inflict suffering on animals. But occasionally we have to wonder if there are not some people who might profit a little by a few hours of, say, burial with merely their noses exposed. It might turn some heartless ones into real human beings.

WHAT OTHER PAPERS SAY

HORSES IN STREET TRAFFIC

The Montreal Star

In several cities in Europe the streets have been closed to horse traffic during the busy hours of the day and in this way congestion has been relieved. Those motorists who have been delayed in Montreal through the slowness of horse-drawn wagons and drays of immense size which move at a slow pace and take up a large share of some of our narrow streets would be glad if such a change was made in Montreal. It would not cause much dislocation of trade, if any, if motor vehicles were substituted for horses, except during the quiet hours of the night, and it would be a benefit to those whose business compels them to get about their affairs without delay.

AN EXCELLENT EXAMPLE

The Halifax Herald

When the school board of an Ontario town granted two teachers an increase of \$100 a year in salary, instead of the \$150 for which they asked, the students of the high school took matters into their own hands and undertook to raise the further amount from among their own resources. The fortunate result of this undertaking was that the school board came to a realization of their duty towards the school, and the total amount of the desired increase in salary was granted. This incident speaks highly for the loyalty and spirit of the students in that Ontario school, and is also a sufficient indication that the teachers in question were worthy of the increased salary which they requested.

THE ARCTIC AIR ROUTE

The New York Evening Post

(Thirteen young English scientists have sailed in the quest to investigate the possibility of a London-New York air route via Iceland and Greenland.) The youthful enthusiasts of the British Arctic Air Route Expedition are not alone in their belief that the clue to air communication between Europe and America is to be found in Greenland. Many Arctic explorers have stated their confidence in the eventual development of the direct air route from England to America and on to the Far East, while the experiences of transatlantic fliers, not excepting those of Major Kingsford-Smith, prove how dangerous the long ocean hop will always be because of fog off the North American coast.

A THOUGHT

For what is a man profited if he gain the whole world and lose his own soul?—Matthew vi 26.
When faith is lost, when honor dies, the man is dead.—Whittier.

Loose Ends

Honorable members of the new Parliament prepare to lose their money and their happiness—there is misery in Sicily—and a new era of acute consciousness in the United States.

By H. B. W.

ACCORDING TO the Ottawa correspondent of The Vancouver Province, newly-elected members of Parliament will not receive a full year's indemnity for the special session which Mr. Bennett is calling to consider employment. They will only get \$20 a day plus expenses, under which heading, it is glibly explained, "it is not customary to overlook anything." To many people in Canada \$20 a day plus expenses, not overlooking anything, would be very welcome about this time, and there will not be lacking electors who will think that members of Parliament are doing pretty well for themselves in these difficult days. But they are not doing well for themselves now or at any time. Being a member of Parliament, even at \$20 a day plus expenses, is the most ruinous occupation in which any reasonably successful man can engage.

IT WAS only yesterday that I met a member of three former Parliaments who was defeated in the recent election, and instead of being broken-hearted, as the electors doubtless imagined, he was as happy as being let out of Parliament as a boy let out of school. For about ten years of his life he has had to spend six months in Ottawa and six months at home. He has had to keep his family at home and himself at Ottawa, and his business, of course, has gone to pot in his absence. His indemnity of \$4,000 did not begin to cover his expenses, apart altogether from his losses. From now on he will be able to make some money and perhaps save some too, while his family lives a livable life in the winter climate of the Coast instead of the winter climate of Ottawa.

THIS IS typical of most of the members of Canada's Parliament, and the wonder to me is not that distinguished Canadian men of great public life, but that any of them submit to it. To be attracted by Parliament a man must be so wealthy that expense and time are no object, or so poor that he needs a job. The average Canadian who has made a reasonable success of his life and could represent the whole community better than a very poor man, a very rich one, can't afford to do it. This is a very grave weakness in our system of government and inevitably must undermine the calibre of our parliaments. It is easy to raise members' indemnities, of course, but it is almost impossible to compensate a man for six months a year away from his home and his business. To a man with a family it is a special hardship, and even if he knows nothing about such matters I am not surprised that the Prime Minister and the Prime Minister-elect are both bachelors. That, at least, is some compensation for their troubles.

IF YOU ARE one of the unhappy males who are deserted by their families for the summer holidays, and are living a life of acute privation and barbarism alone, you should find a measure of comfort in the still greater privation and barbarism of some of your fellow men in Italy. There 185 natives of Sicily are on trial for their lives because they are alleged to be members of the dreaded Sicilian Mafia and to have committed forty-three murders, twenty-six attempted assassinations, numerous blackmasks, robberies and other odd crimes. It is not to them, however, that one's heart goes out in brotherly sympathy. They can look after themselves, as they seem to have looked after other people. One's heart goes out instead to the jury which will try them. For this was the cheerful announcement of the judge to the jury before it: "You must sacrifice all personal interests, cut yourselves off from your homes and families, neglect your business interests—for how long? There are several thousand witnesses to be examined. The indictment alone comprises sixty-nine large volumes. But, courage! I hope—and I prophesy, basing my prophecy on the accelerated tempo of the regime—that with energy and zeal this trial will come to an end in less than half a year!"

WHEN YOU are tempted to complain against an unjust fate, when the house appears as cheerful as a morgue and life just one tin can after another, think of that Italian jury locked up from home and business, with the expectation that, if it is lucky, under the accelerated tempo of Mr. Mussolini's regime, it may be untried in six months. But at least the jurors' families will know for the first time how it feels to be deserted for the summer.

NOWHERE IN our disordered scheme of things are the decaying powers of the human animal more apparent than in its use of language. No sooner does someone invent a new word, a new arrangement of speech, than the whole civilized world is down on it like a vulture, mauling it, distorting it, gobbling it up, putting it to base uses. A classic example is to be found in the use of the two words "conscious" and "minded," which have been debased out of all recognition and all sense.

TO SHOW HOW far this thing has gone an enterprising American editor recently collected a long list of horrible examples in the magazine press of the United States. Thus the National Lithographer, stated that American furniture manufacturers are "planning to put on a nation-wide campaign to make the people furnish."

ture-conscious." Another publication, Mining and Metallurgy, informed its wondering readers that "the recent death of Mr. ... recalls his achievements in making America borax-conscious," truly a splendid life-work. The Plumbers and Heating Contractors' Trade Journal found that "Europe, still far behind America in plumbing and heating, seems to have become a bit bath-conscious," which at least is encouraging.

THE SOUTHERN FURNACE DIRECTOR is optimistic enough to believe that it is "making the public public-minded," which must be a great satisfaction to it. The National Provisioner, with ripe wisdom, assures us that "if the public ever are ham-conscious it is at Easter." Editor and Publisher, who should know better, permitted himself the following: "The object of the campaign to awaken an active tug-of-consciousness among ... means and promote more general usage of this admirable masculine attire." But the American nation is to achieve even greater heights of culture than the splendid state of tuxedo-consciousness. The Greenboro Daily News reports that "Governor Gardner Makes Air Trip to ... They Ought to Become Cow-minded." There is no end to the educational possibilities of this great movement, and before it is finished we may wish we could become entirely unconscious.

The Weather

Daily Bulletin Published by the Victoria Meteorological Department

Victoria, Aug. 6.—The barometer remains high over the Pacific Slope, and fine, warm weather is general, eastward to Manitoba.

5 a.m. Report

Victoria—Barometer, 30.85; temperature, maximum yesterday 62, minimum 54; wind, 3 miles W. clear.

Prince Rupert—Barometer, 30.95; temperature, maximum yesterday 64, minimum 54; wind, 4 miles E. clear.

Fort St. John—Barometer, 30.10; temperature, maximum yesterday 62, minimum 54; wind, 4 miles E. clear.

Seattle—Barometer, 30.06; temperature, maximum yesterday 60, minimum 54; wind, 4 miles E. clear.

Portland—Barometer, 30.04; temperature, maximum yesterday 60, minimum 54; wind, 4 miles E. clear.

PLANS HEAT WAVE NOT YET ENDED BY RAIN

Clear Sky and Hot Sun Disappoint Farmers of the Prairies

Canadian Press
Winnipeg, Aug. 6.—Farmers of the prairies and city folk, too, awake this morning to find a clear sky once again, and no promise of rain, badly needed in many sections for the relief of parched fields. Not even a local shower was promised as the weather man posted his bulletin of "fair and warm."

The heat wave continued from Manitoba westward across the plains. In many areas of the grain belt much havoc having already been caused by the broiling sun and hot, dry wind. The weather man's forecast brought grain prices to higher levels, some futures having advanced 10 cents a bushel and more during the last week, once again appearing above the dollar mark.

APPLE CROP ON ISLAND RUNS HIGH

Sidney and District Generally Suffer From Extreme Dryness

Report outlines conditions in British Columbia as follows:

Victoria—Weather conditions continued very warm and dry for the last two weeks, which is excellent for harvesting. Owing to lack of moisture late crops will undoubtedly suffer before the end of the season. Second crop of alfalfa making excellent growth. Indications are that the apple crop will show an increase of about twenty per cent over the 1929 crop. Pears and stone fruits sizing well and vegetable crops looking good.

Sidney—The whole country side is suffering because of heat and exceeding dryness. The fruit crop promises average in yield and above normal in quality.

Sumnerland—With bright hot weather, crops making rapid growth. Early apples, peaches, plums, gooseberries, to-matoes being shipped; quality above average.

Cocumlan—Weather generally dry and warm with short intervals of extreme heat. This is bringing grain to quick maturity. Cutting of oats starting at coast.

EARLIER LAMBS OFFER WAY TO HIGHER PRICES

Provincial Survey of Sheep Industry Favors January For Lambing

If flockmasters of British Columbia advance the lambing season by about two months they will capture the Canadian market for early lamb, when prices are high, the Provincial Department of Agriculture finds in a special survey conducted by Dr. W. H. Gunn, Director of Animal Husbandry and W. W. Duncan, Director of Market.

The survey finds that breeders should encounter no great difficulty in providing feed for the ewes if lambing is advanced to January or February, when weather conditions on the Pacific Coast are not as severe as experienced in Eastern Canada in April and May.

It is pointed out that lambs dropped in March and April reach market after the best prices have been secured by importations from Oregon and Washington.

Earlier breeding should also be coupled with packing house dressing of the carcasses, the survey recommends. Vancouver Island produced 7,000 lambs last year, the provincial production of 3

B.C. STAMPS TO BE SHOWN AT BERLIN EXHIBIT

Noted Collection of Alfred
Lichtenstein to Be Feature
at International Meeting

Leading Philatelists of World
Sending Rarest Specimens,
One Worth \$35,000

Many of the rarest postage stamps in the world will be exhibited by twenty or more of the leading philatelists in the United States at international stamp exhibition in Berlin from September 12 to 31. Among them will be the celebrated British Guiana 1 cent, magenta, owned by Arthur Hind of Utica and for which he paid about \$35,000 at the Ferrary sale in Paris a few years ago. Alfred P. Lichtenstein, who won the highest honors at the international show in New York four years ago, is sending his unrivaled collection of British Columbia stamps in addition to other rarities in his large collection.

Representative Ernest R. Ackerman of New Jersey has entered for competition a group of fifty rarities, an unusual lot of early foreign stamps on original envelopes and his choice lot of United States stamps, to which some fine additions have lately been made. Mr. Ackerman intends to give personal supervision to his exhibits, and he called for Europe for this purpose last week on the Leviathan. Prior to going to Berlin, Mr. Ackerman has gone to Antwerp, where an important stamp exhibition is to be held from August 9 to 15 as part of the celebration this year commemorating the centenary of Belgian independence. About a dozen Americans will be exhibitors at Antwerp, and their stamps will then go to Berlin.

J. Murray Bartels, a widely-known dealer of New York, will be the only American judge at the Antwerp exhibition, as well as the official representative from the United States at the show. He sailed for Europe recently to attend both exhibitions, and he is taking with him stamps estimated to be worth fully \$1,000,000, representing the choicest specimens from about ten American collections. They have been entered in both the Antwerp and Berlin events.

Mr. Bartels will take with him the greater part of the stamps from the Ackerman collection. The others include the notable collection of the Brazilian first issue owned by Saul Newbury of Chicago, Laurence B. Mason's United States Postmasters and Carriers, James Starr's Chinese stamps, Stephen G. Rich's pre-cancelled stamps of Belgium and some South African issues, the Chicago collection of Dr. Clarence B. Hennan, comprising essays of Holland and the Dutch colonies, and a Brazilian collection sent by the Collectors' Club of New York. This exhibit will be a portion of the specialized 100 reis stamp, 1894 issue, presented to the club by Charles Lathrop Pack.

KEPPELIN STAMPS A FEATURE

Mr. Bartels will exhibit at both shows a rare lot of early United States envelope stamps, from 1833 to 1865, and in addition he is taking a specialized collection of stamps from Paraguay entered by John A. Klemann of New York. John J. Klemann Jr. will show at Berlin a complete set of air-mail envelopes carried by the Zeppelin on her various flights.

In addition to these American exhibitors at Antwerp and whose collections will also be seen in Berlin, other collectors from the United States who have entered for the international prize at Berlin are Mr. Hind, who will show early issues of Spain; Mr. Lichtenstein, who will show some of his other rarities in addition to his specialized collection of British Columbia; Hans Lagerlof, stamps from Norway, Chile, Bolivia, Monaco, Malta and Gibraltar; Theodore E. Steinway, reconstructed sheets of Sydney views and other early issues of New South Wales; Rear Admiral Frederick R. Harris, early Ceylon issues; B. H. Homan Jr., St. Lucia and a collection of United States patriotic envelopes, chiefly used during the Civil War period, owned by Hugh M. Clark of New York. This will be the first time a highly specialized collection of United States patriotic envelopes has ever been shown in a European stamp exhibition.

The United States representative at the Berlin show and one of the judges is Eugene Klein of Philadelphia and he is taking with him for exhibition one of the finest Heiligoland collections in the world and a rare lot of envelopes bearing Mississippi packet-boat cancellations. Charles Lathrop Pack will also be a Berlin exhibitor, and the New York Philatelic Society is sending some United States Bureau pre-cancelled stamps.

In addition to these foreign exhibitions, American philatelists will be well represented in the national show to be held next month in Boston from August 11 to 16 during the convention there of the American Philatelic Society. Some of Mr. Hind's and Representative Ackerman's stamps will be shown there prior to shipping them to Berlin.

Four of the judges at the Boston show are members of the Collectors' Club of New York: Mr. Steinway, Beverly S. King, Dr. Victor Berthold and Victor W. Rotman, in addition to Louis A. Missbach of Brooklyn. Others include Judge Robert S. Emerson of Providence, Clarence Braser of Chester, Pa.; George Angers of Springfield, Mass., and W. L. L. Feltz of Albany. Just before the Boston show and convention the Society of Philatelic Americans is holding its annual convention at Worcester, Mass., from August 7 to 9 inclusive, at which the convention auction sale will be conducted by M. Ohlman.

Steel Operations Slightly Higher

New York, Aug. 6.—Steel ingot production was fractionally higher in the past week, the average being 58.7 per cent against 57.5 per cent in the two preceding weeks. Independent, showed the best gain, almost 1 per cent to nearly 58 per cent, against 57.5 per cent in the two previous weeks. U.S. Steel Corporation was a shade over 64 per cent, contrasted with a fraction under 64 per cent in the two preceding weeks. At this time last year steel activities started downward; the Steel Corporation reporting a drop of 2 1/2 per cent, with independents down more than 1 1/2 per cent to 51 per cent, and the average off nearly 3 per cent to 54 per cent. In the first week of August, 1929, the Steel Corporation was running at better than 70 per cent, with independents around 60 per cent, and the average was 72 1/2 per cent.

Another New Service by CANADIAN NATIONAL

COMMENCING
Tuesday, August 12th

THE new luxurious steamship, The S.S. "PRINCE DAVID" begins the Tri-City Service, with a daily round-trip schedule between Vancouver-Victoria-Seattle.

The last word in improved sea-going transportation . . . commodious two-room suites, comfortable staterooms (all outside rooms and individually steam-heated) . . . spacious dining saloon, hall, observation room, buffet, library, orchestra and with motor car accommodation. Every refinement and convenience known to modern ship design!

DAILY SAILINGS

to and from Seattle-Victoria-Vancouver

NEW DIRIGIBLE SERVICE FIELD IS EXPLORED

Burney Asks Canadian
Leaders to Investigate
Transatlantic Possibilities

Ottawa, Aug. 6.—A suggestion that Canada take the next step in putting the British Empire in the forefront of airship transportation through the inauguration of a transatlantic dirigible service between Great Britain and Canada before the service between Germany and the United States being planned by Dr. Hugo Eckener gets under way, was voiced yesterday by Sir Dennistoun Burney, designer of the R-100, who addressed the Canadian Club of Ottawa.

In the presence of the Governor-General, Premier King, and Hon. R. B. Bennett, Premier-elect, the sponsor of the first Great Britain-to-Canada dirigible flight asked for the formation of a committee of prominent Canadian business men to investigate the situation within the next few days and decide whether the Canadian government and business interests were prepared to back a transatlantic dirigible service. With the views of such a committee before him, he would be able to lay a concrete proposal before the British government on his return to London.

He was prepared, he said, to undertake at once the construction of an airship with a cruising speed of eighty-

five miles an hour, carrying fuel for a 6,000-mile flight, together with 100 passengers and ten tons of mail. With a fleet of such vessels a regular service between Canada and Great Britain could be maintained, taking "two and a half days for the westward crossing and two days for the eastward." He named \$1,000 as the initial passenger fare, and predicted a gradual reduction until it would compare favorably with steamship fares.

It was time to take a bold forward step, Sir Dennistoun asserted. If the Empire was to be knit together culturally, economically and financially, a rapid means of communication had to be provided. "A fleet of such vessels could maintain a regular service, two-and-a-half days on the westward trip," he said. "I don't want to say we could send ships to Montreal every day, but if we had an emergency base several hundred miles to the south we could, with that speed, make that an emergency base and complete the triangle by rail."

Commerce Department Buys More Stinson's

Wayne, Mich., Aug. 6.—The United States Department of Commerce has just purchased three more Stinson Junior airplanes for use by the Airway Department in its work of laying out emergency airports in the various parts of the country and assisting airway travel generally. This brings the total number of Stinson Juniors bought by the Department in the last sixty days to seven.

All three of the planes are equipped with 210 h.p. Lycoming aircraft engines. Delivery will be made within the next fifteen days.

Sees Voters Misled On Unemployment, As Promise Fades

Winnipeg, Aug. 6.—"The Free Press is informed with some heat by a correspondent that it is unreasonable to expect the new Bennett administration to at once remove unemployment," The Manitoba Free Press says. "Of course it is unreasonable. The word is too mild. No one would say that a Bennett administration would cure unemployment in two or three days or overnight unless his intention was, for political advantage, to deceive people out of a job and therefore in a mental state which made them willing to be deceived—about the measure; business that any aspirant for public office could engage himself in."

"It would be very unreasonable indeed for The Free Press to expect the Bennett Government, when it is formed, to dislodge unemployment 'overnight'—that was the very word used in this city by a distinguished leader in the Conservative party who will be a member of the new administration."

"But it is not 'unreasonable' that these pledges and promises should be recalled from time to time to the minds of people who were deceived, lied to and betrayed. The Free Press engages to keep the memories of these people fresh as to these matters."

Worth the Braggles
Mother (admiring small boy):
And don't forget that I'm your mother.
Small Son—Yes, but I do wish you'd quit bragging about it.

Chrysler Shipments

Detroit, Aug. 6.—Chrysler Motors shipments to dealers were 21,779 cars in July, compared with 25,211 in the same month last year. This is relatively the best showing made so far this year, being 80 per cent of last year's shipments for the whole month, while total shipments for the first half of this year were only 65 per cent of the first half of 1929. Plymouth shipments were nearly twice as much as those of July last year.

Marmon Motor Car Company has decided to omit the quarterly dividend on the common stock now due.

DON'T LET SUNBURN SPOIL YOUR VACATION

The sparkling sun beats down—friendly yet treacherous . . . painful sores follow. Splash Absorbine, Jr., on the red, painful skin. You will find that it cools and soothes; instantly taking out all soreness and inflammation. The next day only a slightly deeper coat of tan is the reminder of your day's sport. Absorbine, Jr., is not greasy and will not stain the skin. Keep Absorbine, Jr., handy for insect bites, cuts, bruises or wrenches. It is an invaluable vacation aid, as its antiseptic properties guard against infection. Prepare yourself with a bottle today, ready to pack in your bag. With Absorbine, Jr., you can face holidays with the pleasant, satisfactory inward thought that sunburn will not spoil a minute of your vacation. At your druggists, \$1.25 a bottle.

Never Try to Alleviate Dyspepsia By the Use of Appetizers

Weak After Operation

"I was very weak after an operation. My nerves were so bad I would sit down and cry and my husband would not go out and leave me alone. Now my nerves are much better, thanks to a booklet that was left under the door. Lydia E. Pinkham's Vegetable Compound surely put me on my feet. I have taken eight bottles. My friends tell me I look fine. My sister has taken this medicine too."—Mrs. Annie Walton, 67 Stanley St., Kingston, Ontario.

Lydia E. Pinkham's Vegetable Compound

NEW METHOD

Trestles with adjustable legs have been invented for use of carpenters and paper hangers on stairways and in other places that are not level.

FRIENDLY HELP RECEIVES MOST TIMELY GIFT

\$1,000 Memorial Donation Will Relieve Many Cases of Distress, Report Shows

Most timely, in view of the distress existing in the city owing to unemployment conditions, was the recent gift of \$1,000 to the Friendly Help Association given by W. C. Todd and E. F. Todd among the series of benefactions made in memory of the late Mrs. C. F. Todd and gratefully acknowledged at yesterday's meeting of the association.

The president, Mrs. Callum, presided. Fourteen members were present, including Aldermen Woodward and Adam, representing the city. Two visitors also attended, Messrs. Snowden and Palmer, of the Armistice Period Committee, who came to discuss matters concerning necessitous soldier cases.

During July the reports showed 116 cases, representing 415 persons, had been assisted, some of them being almost entirely dependent on the Friendly Help for groceries, fuel and other supplies. During the month fifteen new cases applied for assistance and seven old cases returned.

The statistics showed that of the 116 cases assisted, seventy-one had groceries, nine had fuel, thirty-eight had clothing and forty-five meat more than once.

From the regular supplies at the rooms, thirty-nine applicants received clothing; fourteen received provisions such as lettuce, dripping, salmon, jam, eggs, etc.; five had sundries, including child's cot, mattresses, stove, chairs, spoons, dishes, etc.

A request was made for vegetables and fruit, and members were asked to circulate the information that donations of these commodities would be appreciated, many requests having been made at the Friendly Help rooms.

DONATIONS ACKNOWLEDGED

The association acknowledges with grateful thanks the following donations received during July:
Cash—The City, Gospel Friend, Margaret Jenkins School, Miss Alexander, Peter's Pence, W. D. Todd, James Maynard, Dr. T. Mercer, Digson, W. C. and E. D. Todd (in memory of mother), Mrs. M. F. Driscoll, E. F. Blackwood, Wm. Jersey Milk, Ltd., Kirk Coal Co., Mrs. Solly, Litchfield, M. B. Wellburn, Andrew Gibson, Oakland Dairy, Clothing—Miss Galt, Mrs. Lyne, Mrs. W. J. Cropping, Miss Alexander, Miss Agnew, left at door, Mrs. Bremner, Mrs. Bell, Mrs. McDougall, Mrs. Wilson, Mrs. Nation, Mrs. Lewin, Mrs. Fenton (Shirley), parcel by post (dresses, new stockings, etc.), Lady Laka, J. D. Hall, Mrs. Jansen, Mrs. R. G. Monteith, Mrs. Izard, Mrs. Dunn (Crofton), Mrs. A. T. Goward, Mrs. P. R. Brown, Mrs. Edward King, Mrs. A. G. Bywater, W. L. Morgan, Capt. J. W. Troup, Mrs. Cantrell, Mrs. Pearce, Mrs. Mara, Miss Lucas, Three Boys, Anonymous, Miss Seater, Mrs. Yarrow, Mrs. G. R. Poole (Crofton), Miss Stewart-Williams, J. D. Neill, Mrs. Lightbody, Mrs. Galt, Mrs. Orchard (Metchosin), Rev. Mr. Porter, (Alberni), Mrs. Ward (Sidney), Mrs. A. F. Brady (Glenora), Mrs. E. M. Douglas and Mrs. Bullivant.
Provisions—W. R. Shotbolt, salmon; Mrs. Walters, eggs; Mrs. R. M. dripping; Mrs. Atkins, lettuce; John Smith, dripping; Mrs. E. M. Douglas, jam.
Sundries—F. Landseberg, mattresses; Miss Alexander, typewriter; Mrs. Hartley, hammock; Miss Lucas, chairs, spoons, dishes, etc.; Miss Wheeler, crockery; Mrs. Dooley, wood; Mrs. Moore, stove.

GLORIA SWANSON GETS SEPARATION

Will Live Apart From Marquis de la Falaise de la Courday

Los Angeles, Aug. 6.—Gloria Swanson and her titled husband, the Marquis Henri de la Falaise de la Courday, have decided to "live apart."

The screen actress made public a statement to this effect yesterday following the return of her husband from Paris Sunday. "Henri and I shall continue to live at the beach. We have found it possible to maintain separate establishments and still be the best of friends."

The couple was understood to have spent most of yesterday conferring on their future courses, but no other word was issued. Reports of an alleged separation had been current in Hollywood for several months, but they previously had met repeated denials.

Aged Women Are Grateful to Donors Of Generous Gift

Mrs. Clay presided at the regular monthly meeting of the committee of the Aged Women's Home held on Tuesday at 2:30 o'clock.

Members present included: Mesdames Gould, Grant, Vincent, Leiser, Sabiston, Whittier and Miss O'Brien. The usual routine business was attended to and all bills for the month ordered paid.

The secretary reported that a number of applications had been received during the month, but all had to be refused, as the home is filled to capacity.

The renovations which have been going on in the home for the last few months are now practically completed, and are a source of great pride to the committee and staff. Donations gratefully received included: Mesdames, A. Humphries, flowers; Mrs. Scroggie, Mrs. Gellert, Pollock Bros. and Victoria Fuel Company.

The inmates of the home, and who benefited by the generosity of the donors of the late Mrs. C. F. Todd, who gave a twenty-dollar bill to each inmate, wish to express their gratitude and thanks to the donors and to say how happy they were with the gift. Mrs. Todd was at all times a good friend to the home, never failing to remember them, especially at Christmas time.

SOCIAL ITEMS

His Honor the Lieutenant-Governor and Mrs. Mackenzie, accompanied by Mr. A. M. D. Fairbairn, returned to Government House this morning after an extended visit through the Peace River country.

Mr. and Mrs. Stanley Wagg of Ganges and their baby daughter are visiting Victoria.

Mr. James Aitken Lyons, Jr., of Portland, is visiting in Victoria and is a guest at The Angela.

Mrs. W. Bell Belmont Avenue, has gone over to Vancouver on a visit to Mrs. Howard Parrant.

Mr. and Mrs. A. C. DesBrisay of Vancouver are among the guests registered at the Empress Hotel to-day.

Mr. and Mrs. H. S. Haier of Tucson, Ariz., and Mrs. C. B. Moore, from Texas, are guests registered at the Empress Hotel to-day.

Mrs. Lennox Irving of Foul Bay has gone over to Vancouver, where she is the guest of her sister, Mrs. C. Balmer McAllister, for a few days.

Miss Edith Tisdall, of Kelowna, is visiting in Victoria as the guest of her grandparents, Mr. and Mrs. Edward White, Michigan Street.

Mrs. Marshall Beck and Master Dick Beck, of Vancouver, are spending several weeks in Victoria as the guests of Mrs. Beck's mother, Lady McBride, Quadra Street.

Mrs. William White and Miss George Johnson, have returned after spending a week at the recent wedding in Vancouver of Miss Ivy Jane Ingram to Mr. John C. Ellis of Vancouver.

His Honor the Lieutenant-Governor and Mrs. Mackenzie were guests of honor at a dinner party given by Mr. and Mrs. George Kidd in Vancouver yesterday evening.

Mr. and Mrs. W. T. Tuck of 410 Simcoe Street have their son, Dr. Mervyn A. Tuck of Los Angeles spending a short holiday with them. Dr. Tuck will return to the south next week.

Mrs. Ross Stirling, Mr. J. D. Johnston, Mr. J. Mehan and Mr. W. Baird, all of Vancouver, were at the Empress Hotel yesterday on business from the mainland.

Miss Dorothy Morrow, "Connamara," Colwood, has returned after spending a short holiday as the guest of Mrs. R. Jackson, Downey Road, Deep Cove. Miss Harriet Morrow has also returned after being the guest of her aunt, Mrs. H. O. Kirkham, Chabot, Deep Cove.

Mr. Joseph Hunter, Government Street, accompanied by his daughter-in-law, Mrs. Douglas Hunter, and his grandson, Master Sandy Hunter, left yesterday for Seattle to spend a few days.

Vancouver visitors registered at the Empress include: Mr. G. K. Haspel, Commander and Mrs. Henry J. Cavendish, who, with his son, Master James Humphreys, have returned to the Coast en route for Hatley Park to visit Mrs. Dunsmuir.

Mr. and Mrs. H. Murray Cameron of Vancouver, who have been holidaying at Qualicum, returned to spend the week-end as the guests of Mr. and Mrs. Norman Loughheed, "Loughheed," Shoal Harbor. Mrs. Loughheed entertained at a dinner party in their honor on Sunday evening.

Guests registered at Brenta Lodge, Brentwood, include Mr. and Mrs. E. Dennis, La Canada, Calif.; Mr. Geo. T. Westinghouse, Seattle; Mr. and Mrs. H. Buller, Toronto; Albert H. Blandford, London, Eng.

Miss Meryl McCulloch, who, with her mother, Mrs. G. M. McCulloch, has been spending the last year in Europe, returned on Monday to her home, 2285 Woodlawn Crescent. Mrs. McCulloch is expected home shortly.

Major Selden Humphreys went over to Vancouver yesterday to meet Lieut. Commander and Mrs. Henry J. Cavendish, who, with his son, Master James Humphreys, have returned to the Coast en route for Hatley Park to visit Mrs. Dunsmuir.

Mr. and Mrs. H. Murray Cameron of Vancouver, who have been holidaying at Qualicum, returned to spend the week-end as the guests of Mr. and Mrs. Norman Loughheed, "Loughheed," Shoal Harbor. Mrs. Loughheed entertained at a dinner party in their honor on Sunday evening.

Guests registered at Brenta Lodge, Brentwood, include Mr. and Mrs. E. Dennis, La Canada, Calif.; Mr. Geo. T. Westinghouse, Seattle; Mr. and Mrs. H. Buller, Toronto; Albert H. Blandford, London, Eng.

Miss Meryl McCulloch, who, with her mother, Mrs. G. M. McCulloch, has been spending the last year in Europe, returned on Monday to her home, 2285 Woodlawn Crescent. Mrs. McCulloch is expected home shortly.

Miss Meryl McCulloch, who, with her mother, Mrs. G. M. McCulloch, has been spending the last year in Europe, returned on Monday to her home, 2285 Woodlawn Crescent. Mrs. McCulloch is expected home shortly.

POPULAR YOUNG COUPLE WED QUIETLY TO-DAY

Miss Norah MacEachern Becomes Bride of Valdemar F. Bendrodt

A quiet wedding, at which only the immediate relatives of the contracting parties were present, took place this afternoon at 3 o'clock at St. Andrew's Presbyterian Church when Rev. H. P. S. Luttrell united in marriage Norah Helen, youngest daughter of Mr. MacEachern of 136 St. Andrew's Street, and the late Mr. J. H. MacEachern, and Mr. Valdemar Frederick Bendrodt, youngest son of Mr. Bendrodt, and the late Captain J. F. M. Bendrodt of Victoria.

Given in marriage by her brother, Mr. Gordon MacEachern, the bride was smartly gowned in a French model of heavy flesh-colored silk crepe, fashioned with simplicity, over which she wore a coat of pink tulle. Her hair was a Gainsborough model of georgette to match her dress, and was trimmed with tiny rosebuds. There were no attendants.

Following the service at the church, a small reception was held at the home of the bride's mother, Mrs. MacEachern, St. Andrew's Street.

Mr. and Mrs. Bendrodt left later by motor for a trip up the island and prior to returning to Victoria will spend some time at Shawinigan Lake in a summer home loaned to them for the honeymoon. They will make their home in Victoria on Oscar Street.

For the last six years the bride has been on the staff of the Bank of Montreal, Douglas and Yates Street, and was the recipient of a handsome wedding present from her fellow associates at the bank, consisting of a Sheffield silver tea and coffee set and a large Sheffield silver tray, while from the head office in Montreal she received a substantial cheque.

The groom, who was formerly on the editorial staff of The Victoria Daily Colonist, is now the proprietor of the Bendrodt Advertising Agency in Victoria.

Indignant wife (to incoming husband)—What does the clock say? Husband—It says "tick-tock" and dogness say "bow-wow" and cows say "moo-moo" and little pussy-cats say "meow-meow." Now are you satisfied?

Two men had a cheery night out and when they met a few days later, they compared notes. "That was a night and no mistake," said one of them. "Do you know I finished up in the police station?"

"Lucky dog!" said the other, bitterly. "I found my way home!"

Cowichan Nurses Busy In July

Duncan, Aug. 6.—The report for July presented by Miss A. Yates, is as follows: Three nurses on duty made 108 bedside nursing visits, sixty-seven child welfare and forty-three welfare visits. Co-operative visits numbered twenty-seven with nine miscellaneous and forty-three home school visits.

Ninety-seven visits were made to the Health Centre for treatment and advice and 104 consultations held by telephone with doctors and others.

Three dental clinics were held at the Health Centre with twenty children treated and thirteen treatments completed.

The regular well-baby clinic was held at the Health Centre on July 16 with Dr. Bissett in charge and twenty-one babies present.

Two evening classes were conducted to examine Girl Guides for home nursing badges.

Dr. Lamb was at the hospital July 16 and 17. Four patients were transported to his clinic.

MISS MACKENZIE AT CLUB'S TEA

Lieut.-Governor and Niece Guests at Vancouver Function Yesterday

Vancouver, Aug. 6.—The coming of age of the Women's Canadian Club of Vancouver was celebrated with a birthday party yesterday afternoon at Hotel Vancouver and the reception, followed by tea, was attended by many outstanding guests, foremost among them being His Honor the Lieutenant-Governor of British Columbia and Miss Margaret Mackenzie.

The hostess in the ballroom and prior to entering it special guests were presented to His Honor and Miss Mackenzie in the Italian room. Solo were given by Mrs. Burton Kuhl, accompanied by Mr. Kurth, Miss Margaret S. Ross, the president, presented Miss Mackenzie with a bouquet of flowers and His Honor the Lieutenant-Governor was the recipient of a souvenir book outlining the history of the club, bound in leather and bearing the club seal. A presentation of a birthday book was also made to Mrs. M. A. McLean, the honorary president, and to Mrs. James Macaulay.

The host table in the ballroom was centred with sweet peas and gladioli, shaped in the form of a horseshoe, and seated at it were His Honor the Lieutenant-Governor, Miss Margaret Mackenzie, Mrs. J. L. Turnbull, Mrs. A. C. Bagley, Mr. Fairbairn, aide-de-camp to His Honor, Mrs. James Macaulay, Mrs. P. B. Scurrah, president of the Victoria Women's Canadian Club; Mrs. Robert McNair, Mr. and Mrs. Burton Kurth, Mrs. Akhurst, Mrs. A. J. Patterson, Mrs. W. C. Dittmar, Miss Millicent Wright, Mrs. Chris McRae, Mrs. C. B. McAllister, Mrs. R. C. Boyle, Mrs. W. D. Nickerson, Mrs. F. O. Lewis, Mrs. C. H. Torsley, Mrs. E. G. Macpherson, Mrs. T. H. Kirk, Mrs. S. J. Crowe, Mrs. G. H. Worthington, Mrs. W. D. Hayward, Mrs. W. A. Clark and Mrs. Julius Griffith.

Other guests were seated at smaller tables throughout the room.

AGED AUTHORESS DIES IN SOUTH

Mrs. Isabella M. Alden Wrote More Than 120 Books

Palo Alto, Cal., Aug. 6.—Death today ended eighty years of writing by Isabella M. Alden, who gained world-wide fame as "Pansy," the pet name she signed over her first story when she was but eight years old.

During her long career Mrs. Alden wrote more than 120 books, the best known being the "Chataqua," "Peter Ried" and "Life of Christ" series. She continued to write, although ill, during the last four years, and her last work was an autobiographical volume, "Memories of Yesterday."

Mrs. Alden's illness resulted from two accidents in 1928. She was hurt in an automobile accident and later her hip was fractured in a fall. A month ago her condition became serious, and she gradually grew weaker, death coming at 9 o'clock this morning.

An airplane with a horizontal revolving wing has been flown successfully in Europe without a pilot.

MYRNA LOY
What's the secret? I'd no more carry a lipstick than a hairbrush—

"I don't have to," explains that charming film star, Myrna Loy. "Before going on the lot or out for the evening, I make up my lips with Kissproof. Then I know they will look their best—and keep looking that way all day or evening." Kiss Loy is but one of many Hollywood stars who use Kissproof—the natural, lasting lipstick. At all toilet counters.

Shot from Guns

125 million food cells exploded

That's what makes Puffed Grains crisp... delicious... virtually as nourishing as hot cooked cereals

YOU may have wondered why Puffed Wheat and Puffed Rice are so light and crunchy... so meltingly good to eat.

Here's the secret. They are made by an utterly different process from all other ready-to-eat cereals. Grains of wheat and rice are sealed in bronze guns. The guns are revolved in fiery ovens. In this terrific heat the natural grain moisture in each tiny food cell expands into steam.

When the guns are fired, 125 million explosions occur in each grain. Every tiny food cell is completely broken up. (Just as it would be from long hours of cooking.) Hence every particle of food is completely digestible. This is why Puffed Wheat and Puffed Rice are rated as virtually as nourishing as hot cooked cereals.

When these grains come forth in showers from the guns, they've been puffed to 8 times normal size. They're crisp, fragile, crunchy... deliciously good to eat. They taste like sweet new nutmeats. Like fresh buttered popcorn. You'll say you never before dreamed that wheat and rice could be so meltingly good to eat.

Don't neglect to give your family this more delicious... more richly nourishing cereal. Order Puffed Wheat and Puffed Rice from your grocer today.

Dizzy, Weak Heart Terrible Headaches All Gone. New Life

"FRUITATIVES" Stop
Years-old Tortures Quick

"Was bothered with dizziness, weak heart, terrible headaches. After taking 'Fruitatives' am entirely relieved: feel like new person." — Mrs. F. Valcourt, St. Gabriel, East, P.Q.

Thousands tell miracles of "Fruitatives." Constipation, liver trouble, dizziness, weakness, headaches cut overnight. Bad stomach, biliousness, indigestion, heartburn, gas, vanishing promptly. Kidney and bladder ills, pain in back go in 24 hours. Nerves and heart quiet, sound sleep at once. Rheumatism, neuralgia, decamp quick. Complexion clears.

Ten of nature's greatest remedies combined in handy little tablet. Marvelous discovery of famous Canadian doctor. Speedy results amaze.

Get "Fruitatives" from druggist to-day. "Become new person overnight."

Children's Aid Home Grateful For Many Donations

The Children's Aid Society gratefully acknowledge the following donations:

Bread and cake, Mr. Mitchell, Mrs. Herber, S.O.S. Eastern Star, United Commercial Travelers, Queen City Chapter, O.E.S. Christ Church, Major John H. Gillespie Chapter, I.O.G.E. St. Mark's, Hennie & Taylor, girls of Victoria High School, Burns, Hennie & Taylor, Dick's Bakery, milk, girls of Victoria High School, Mrs. Goward, Mr. Tallow, strawberries, anonymous; butter and one pair stockings, Mrs. Reid; book, Miss Robertson; fruit, vegetables and candy, Mr. Maynard; Mrs. Brock, Mrs. Hobbs, Mrs. Angus; clothing, Mrs. Millar, Mrs. Rolla, Mrs. A. Muir; shoes, Capilano and Dominion Theaters; medical services, Dr. Montague, Dr. Kinraid, nurses and children's ward, Jubilee Hospital; Dr. Proctor, money to each child; Times and Colonist; J. North made all arrangements for the summer picnic, but the children were unable to go. Mr. North then brought food, ice cream and prizes left over.

NEARLY 2,000 HEAR ARION CLUB RECITAL

Veteran Choir Delights Crowd
at Parliament Square; \$105
For Sunshine Camp

With its tangible result the addition of \$105 to the Sunshine Camp fund of the Social Service League, and its intangible result the giving of much real pleasure to the crowd of nearly two thousand auditors assembled in the grounds of the Parliament Buildings, the Arion Club gave its annual outdoor recital yesterday evening under ideal weather conditions.

The choir was in excellent form and its programme well-chosen, and in the still, balmy air the voices carried splendidly to the more remote part of the grounds and across the harbor. Frank J. Sehl conducted in his usual able manner, and R. Hollaway, L.A.S. accompanied sympathetically. Mrs. W. H. Wilson, gold medalist soprano, sang a group of solos with much charm and clarity of diction, including "The Wren," "Callie Herring" and "Annie Laurie."

William Crouch, president of the Social Service League, made a brief appeal, explaining the work of the Sunshine Camp, destined for the benefit of tired mothers and their babies. Miss Inez Ker assisted by a group of friends, together with young ladies from the First United Church, then took up a collection among the crowd, the proceeds amounting to \$105, for which the Board of Directors of the League expresses its gratitude to the donors, to the Arion Club and to the girls who acted as collectors.

WOMEN LAWYERS AT BAR MEETING

Five Portias Among British
and French Delegates to
Canada

Montreal, Que., Aug. 6.—Five women lawyers are among the party of British and French delegates to the annual meeting of the Canadian Bar Association at Toronto, and the delegates will be in Montreal on August 13. Four are members of the English Junior Bar, Mrs. Arney, Miss Mercy Ashworth, Miss Sara Moszkowski and Miss Dorothy Scott Stokes, while the French woman is Miss Neiter.

FRAU WAGNER SOLE LEGATEE

Will of Famous Musician In-
sures Continuance of
Festival

Bayreuth, Germany, Aug. 6.—The will of Siegfried Wagner establishes the widow as his sole legatee, with full authority over the theatre, where annually is held the famous Wagnerian musical festival, who has been on the committee of three managing the festival for some time, requested the others, Dr. Knittel and Herr Fries, to retain their posts.

After hearing the will the committee issued an announcement saying, "in conformity with the wishes of Siegfried Wagner the festival will continue as scheduled."

Burial of Siegfried Wagner, who died Monday, was at noon to-day.

Venus Herself Would Not Have a Chance

Paris, Aug. 6.—Venus herself would have no chance in a modern beauty competition, judging by the brief career of Emmy Kuster, elected queen of the beauties of Holland and then dethroned because she was "old" and married.

Yet the reign of Queen Emmy, brief as it was, has only increased her following and brought something like ridicule on beauty contests the world over.

The grave judges of the Hague—beauty judges—examined many fair contestants in the competition for the selection of a queen to choose "Miss Holland" to represent the country in the international beauty contest in America. Unanimously they chose Emmy Kuster, who was to them everything—a Dutch beauty—should be Emmy was hailed and toasted, her charms charmed the world.

But alas, the popularity of Emmy led to an enthusiastic inquiry into her private life. It was discovered that she was past 30 years of age, that she had been married for 11 years, and had not only a husband, but a daughter of nine.

The judges met again, disqualified her for this regrettable part of her life, and named as Miss Holland their original second choice, Miss Van de Hest. Regulations for the selection of these beauties stipulate that they must be unmarried and not over 25 years of age. Obviously Emmy Kuster with her burden of child and years, was not though she remains as beautiful as ever.

Why should married women and especially those who have known the joys of motherhood, be denied recognition of their beauty and excluded from this tournament? asks Clement Vautel, well-known satirical writer, in Le Journal of Paris.

"It was not thus on Mount Ida," he says. "Two of the immortals who disputed the prize offered by the Shepherd Paris were married: Juno with Jupiter and Venus with Vulcan, and this latter beauty had given birth, for our joy or happiness, to Cupid."

"Minerva had the right, therefore, if the rule of time had been in those days as in our time, to say to the young shepherd:

"These women ought to be eliminated. I am the only young girl here, to give me the apple."

"Evidently Minerva was not bad for those who like them serious, but then, there was no possible comparison with Venus."

"It seems to me that in a beauty contest beauty alone should be considered. Marriage, and even maternity, do not spoil woman's lines. How many angular, hunched and even ugly girls become quite good-looking after having boarded the conjugal barque and fulfilled the essential function of their sex, that of motherhood. This happy metamorphosis, often prescribed by a family doctor, is sufficient proof that the rosebud should be barred from a contest for the most beautiful flower."

"Further, it is bad policy in these days of sexual anarchy and disapproval to consider marriage as a downfall and maternity as a blight."

"Is it permissible to proclaim that a woman of 30 is finished from an aesthetic point of view? On the contrary, in my opinion, the shrinkage for the opposite sex the age of real beauty, beauty representing not a promise, but a realization."

"The disqualification of the poor Dutch girl seems to me to be a scandalous flouting of justice and good sense, which are synonymous."

Vautel concludes by suggesting that, this being an international competition, the ex-Miss Holland would be well advised to ask aid and protection of The Hague Court which, after all, is right next door to her.

MELLON BUYS ESTATE FOR DAUGHTER

This beautiful Virginia estate, "Oak Hill," famous in American history, has been purchased by Secretary of the Treasury Andrew Mellon for his daughter, Mrs. David K. Estes Bruce. Situated about forty miles from Washington, the 100-year-old colonial mansion has as its first occupant James Munroe, fifth President of the United States. The estate comprises 1,300 acres.

YOUR BABY and MINE

Mrs. Eided will be glad to answer all questions pertaining to babies and children. Addressed envelopes forwarded to this office will bring a personal reply.

BABY NEEDS SOLID FOOD AFTER FIFTH MONTH

Once having provided their babies with good milk formulas, mothers seem to feel that they need worry about nothing else. The older generation nursed its babies overlong, but stoned for the deficiencies of this diet by putting baby at the table and regaling him with everything edible upon it.

The modern mother measures her baby's menu by the tablespoon with a careful eye on the diet list. Sometimes she overcautiously keeps her baby on a milk diet well into the second year, fearful of anything in solid form.

Milk is important, and so is solid food. After five months, at which age the average child begins teething, the need for solid food is apparent and real.

DISSATISFIED BABY
To-day's problem comes from the letter of Mrs. H.P.G.: "My boy is eight months old and weighs twenty pounds. He takes his bottle readily but does not care for solid food. He has one tooth. Lately his stools have been irregular, frequent and very loose. I put him to bed at 6.30 he cries for hours. What can I do to solve this noisy problem?"

The sleeping hours are attached too firmly to the problem of diets, says

and all other habits of baby's day to hazard a guess upon so little information. I feel sure that once the diet is improved, you can decide for yourself what is causing the failure to sleep at bedtime. Our leaflet called "Reasons For Wakefulness," will tell you the usual causes and help you to decide which one is operating in your particular case.

Heat, a coming second tooth, or some infection from heat and milk, may be causing the numerous stools. It is always wise to boil milk in hot weather, to give no more than one quart a day, and when the bowels are overactive, to replace at least one-fourth of the usual amount with bottled water.

Your present correct formula should be thirty-two ounces of milk, boiled and then measured, eight ounces of cereal, and four and one-half tablespoons of sugar. This allows for five eight-ounce bottles. As soon as the bowels are normal after reducing the food as suggested, begin to improve the diet by adding green sliced vegetables, cereal, orange or tomato juice (which should be included even now), and see that baby gets some food before each bottle. Feeding after baby is filled to repletion with milk is not as good as to give the cereal or the vegetable before the milk. The baby has a natural appetite for these foods.

WOMEN IN TRAFFIC WHIRL HOLD KEY TO RENT VALUES

New York, Aug. 6.—Milton Rosenblum, a Fifth Avenue specialist, says volume in office is deceptive in figuring the value of traffic.

"Delbert S. Wendick of St. Louis, in an address before the National Association of Real Estate Boards in Toronto, showed by the use of charts and graphs that traffic can be determined, analyzed and valued," he said yesterday. "I noted with much interest his valuable conclusions. He said pedestrians in a business district are on streets for three purposes—structural, as those employed in office buildings, shops, factories, and it would exist regardless of retail shops or other ground floor use; lane, as people moving from point to point on the line of least resistance with little purchasing power, their destination being a bank, theatre, court, subway station, bridge, post office; shopping, the valuable groups, which chain store executives and individual merchants use as the basis for determining locations and the rent they are able to pay."

"Women's traffic can be divided into two classes: the married woman, or family shopper, and the single girl who shops only for herself. Family traffic varies in response to many influences, such as weather, advertising, business conditions, time of year, and this class is an excellent barometer of purchasing power; flapper traffic does not vary from day to day and does not contain a high percentage of purchasing power. In a drug store test 90 per cent of the men entering made purchases, while only 62 per cent of the women were purchasers."

"Heavy pedestrian and motor traffic is changing shopping habits and there is a developing center every important metropolitan centre small business areas, often complete units, containing specialty shops, banks, theatres, fine department stores, for if Mohammed cannot go to the mountain, the mountain must go to Mohammed. Ten years ago a woman would go shopping to make a day of it. With her activities to claim her attention, the modern woman does not waste more hours than is necessary in her shopping, as life has become too interesting."

Negro Candy Maker Leaves Fortune To Equip Gymnasium

May Landing, N.J., Aug. 6.—In his quarter of a century as owner of a candy store, John Underhill, negro, amassed \$100,000 from pennies apiece by school children. He died recently, and his will directs that his fortune be used for equipment of a high school gymnasium.

CAREER WOMEN SET STYLES, BUILDERS FORCED TO FOLLOW

New York, Aug. 6.—Announcing that more than 50 per cent of residents of the twin Beaux Arts apartments at Nos. 307-310 East 44th Street, are women and that approximately 80 per cent of these are seriously identified with business, the professions or arts, John L. Conroy, residential manager for Douglas L. Elliman and Company, managers for the buildings, declared yesterday that the "career woman" in metropolitan life is becoming an outstanding factor in apartment house design and management.

"The 'career woman,' a distinctly twentieth century social development, is making increasingly imperative demands in the field of housing and building management," he explained. "Not only must we in the building management field direct and govern our large apartment houses to meet the changing conditions of her social and economic needs, but builders must plan to meet the same requirements."

Raymond Hood and Kenneth Murchison, who designed the twin Beaux Arts houses for George A. Fuller Company, recognized this new factor when they devoted roughly three-fourths of the

floor space to single-room apartments and then made each a complete living unit—living room, bedroom, dressing room, bath, kitchenette, electric refrigerator, even incinerator chutes.

"The 'career woman' demands all the freedom from housekeeping obligations that men require but still wishes to retain facilities for small scale housekeeping not only as a measure of economy but as a form of relaxation. Thus, in addition to a central location, near her office or shop, she wants maid service, valet service and restaurant service. But she also wishes to be able to dispense with these or supplement them with her own efforts on occasion. More than man, woman feels at times the spiritual need of detachment or semi-detachment—wants to be self-sustaining within her home. She wants more than mere hotel life, while still having hotel conveniences available on call. On the other hand, she desires the security of a permanent residence type of housing or management. She wants a balanced social atmosphere, not a club, so buildings must be planned with in mind for both men and women of the career type."

EXPECTED BIRTH RECALLS TALE OF WARMING PAN

Home Secretary's Presence
at Glamis Revives Legend
of Pretender's Birth

By THOMAS T. CHAMPTION
Canadian Press Staff Correspondent

London, Aug. 6.—When Rt. Hon. J. R. Clynes arrived at Glamis Castle yesterday it was to fulfil the historic duty of very necessary duty of the home secretary.

The presence of the home secretary at the birth of a possible heir to the crown is supposed to have its origin in the famous "warming-pan" legend associated with James II. It was asserted and widely believed at the time that James' wife Mary never had a child, but one was introduced to her in the warming-pan and afterwards became the pretender to the Throne of England.

Legal authority informs the Canadian Press, however, that the association of the home secretary with a royal event of this character has its beginnings much farther back in history, when the sovereign's chief minister was always a priest and was called, "the beloved clerk who sits continually by our side." This priest used to control the royal household and looked to receiving his ultimate reward in the form of a bishopric.

Rt. Hon. J. R. Clynes is a quiet little man. He was one of seven children born of an Irish laborer, and was born at Oldham, sixty years ago. At the age of ten he went to work in a cotton mill. No cabinet minister in the present Labor Government had a harder bringing up, and his poor physique is doubtless a result of his early sequences. As a lad he earned a little extra money by clog dancing. Neither in private nor in public, however, does Clynes betray any grudge against society for what he endured. He is a great reader and a delightful man to talk to on a host of topics.

and store in refrigerator until wanted. Add six cups of ice water will be needed to dilute this syrup.

DAILY MENU

Luncheon—Ham and potato toast, lettuce salad, oatmeal drop cookies, sliced bananas, milk, tea.

Dinner—Lamb kidney chops, currant jelly sauce, wax beans, blueberry cobbler, browned potatoes, creamed milk, coffee.

One of the surest ways of attaining popularity during the summer months is to be able to serve delicious, cooling drinks to one's friends on a minute's notice.

If lemonade is dressed up a bit in an unusual fashion, it becomes distinctive and impressive. With a bottle of lemon syrup always in the refrigerator, it is a simple matter to concoct an unusual and refreshing drink.

A ball of ice cream about the size of those sold in five-cent ice cream cones is right for the amount of beverage contained in the ordinary drinking glass. Since the ice cream is added last, it must be half the liquid. A spoonful of crushed fresh fruit, lemonade to half fill the glass and a ball or spoonful of vanilla or strawberry ice cream is doubtless one of the most refreshing and palatable refreshments.

There are many other combinations in which ice cream plays an important part. A combination of grape juice and strong lemonade, shredded pineapple and strawberry ice cream makes a refreshing drink.

Mint Syrup is rather unusual and the recipe follows:

MINT SYRUP
One and one-fourth cups mint leaves, six cups water, three cups granulated sugar, twelve lemons, six oranges, one and a half cups red raspberry juice.

Crush the sugar and water and let boil for eight minutes. Add mint leaves and cook two minutes. Cover and let stand half an hour. Strain through cheesecloth and let cool. Add strained fruit juice and let blend at least an hour before using or bottle.

15,000 DEMAND SARGON DAILY

Vast Growing Army of Sargon
Users, Marching Single File,
Would Encircle Globe in
Only Few Years Time

By RICHARD L. SIMMS

Atlanta, Ga.—More like a tale from the Arabian Nights of old than a record of modern business achievement reads the story of the marvelous growth and development of Sargon the New Scientific Compound which has become the sensation of the drug trade throughout Canada, the United States and other countries.

The old illustration of the pebble dropped into the pool best describes the phenomenal and unprecedented demand and its fame is rapidly spreading over the entire continent.

Recently compiled figures reveal that approximately 15,000 men and women are marching into the drug stores daily for Sargon and Sargon Soft Mass Pills, the marvelous new treatment that is restoring health to countless thousands by new and remarkable methods undreamed of only a few years ago.

Already more than 5,000,000 suffering men and women have put it to the test, and have told other millions what it has done for them.

Marching in regulation army fashion—single file—this vast army of Sargon users would reach from New York to San Francisco, and at the present rate of sale—would, in a few years' time encircle the entire globe.

The only explanation of Sargon's triumph in the medical world is Sargon's true worth. Back of the triumph in the drug stores is its triumph in the homes, and it is the grateful endorsements of its millions of users that has made it the most widely talked of medicine in the world to-day.

Sargon is extensively advertised. It is true, but no preparation, no matter how extensively advertised, could possibly meet with such phenomenal success unless it possessed absolute merit and extraordinary powers as a medicine.

There can be but one possible explanation for Sargon's amazing success and it can be told in one word—MERIT!

Sargon may be obtained in Victoria and Vancouver at all City Drug Stores; in New Westminster from the Bessie Drug Co. and in Regimault from Palmer's Drug Store.

The Italian government has granted to the match industry a complete monopoly over the manufacture, importation and sale of automatic lighters.

AT THE THEATRES

PLAYERS HURT IN FILMING SCENES FOR "ALL QUIET"

After the completion of the many battle scenes included in the colossal epic, "All Quiet on the Western Front," now running at the Capitol Theatre, Universal officials made a careful check of the value of the first aid hospital unit that accompanied the company on all its locations.

According to a report prepared by Dr. William P. Hitchens, who was in charge of the hospital unit, approximately 3,504 cases were treated during the eleven weeks of production when large groups of extras were engaged. Of this number there was not a single serious case. The figures indicated that John Hallor, who was employed by the company to give first aid treatment, handled forty-six cases daily.

These cases ranged from simple lesions to dislocations and fractures. It so happened that there were but three cases of dislocations and fractures and these were of a minor nature. Most of cases treated were slight abrasions and burns. Soldiers occasionally were struck by flying objects or sustained slight injuries in barbed wire entanglements.

JANET GAYNOR IS OWN ACCOMPANIST AT THE COLISEUM

Janet Gaynor, winsome screen favorite, who makes her Fox Movietone musical comedy debut in "Sunny Side Up," at the Coliseum Theatre, has added another accomplishment to supplement her singing and dancing in this production.

The script for "Sunny Side Up" called for Molly Carr, leading lady, to play the zither in several sequences. "But Miss Gaynor is no zitherist," protested Fox executives.

"I'll learn," she said. And she did! The zither, with its plaintive tones, supplies a perfect complement for Miss Gaynor's voice, the sweetest yet heard on the audible screen.

GREAT PICTURE IS COMING NEXT WEEK TO THE PLAYHOUSE

The leader of the Peace League in "High Treason," coming next week to the Playhouse, is content to suffer martyrdom in the cause. It was the Duke of Wellington who said in 1829: "I am one of those who has passed the large part of my life in war—in some respects in civil war—and if I could avoid by any sacrifice civil war, I would do so. I would sacrifice my life to do it."

A great proportion of the Peace League is women, and the film bases its prophecy on sound premises, as is indicated by the work women are already doing in the cause of World Peace.

"I know that there are millions of women who want World Peace, but who think of it as a vague, indefinite ideal for which they would strive if they knew it could be obtained."—(Mrs. Macaulay, American speaker at Central Hall, Westminster, April 21, 1929.)

ORIGINAL TOPSY OF THE STAGE IS IN "GOLD DIGGERS"

Gertrude Short, who played the role of Topsy in the silent motion picture version of "The Gold Diggers," portrays the same characterization in "Gold Diggers of Broadway," Warner Bros. and Vitaphone 100 per cent natural all-color, singing, talking, dancing adaptation of that successful stage play at the Columbia Theatre.

Sooke

The Young People's Society of Knox Presbyterian Church on Saturday visited Leechtown. Under the leadership of Mrs. V. Richardson, fifteen members and friends spent a very interesting time. The old diggings were visited and Mr. Cragg of Leechtown formally presented the party with the "key and the freedom of the town," and kindly pointed out items of note. The following made up the party: Mrs. C. Richardson, Mr. and Mrs. C. Thompson, Misses E. Harris, M. Horne, L. and V. Helgeson, A. George, V. Soward, and M. and M. Richardson, also L. Muir and Alec Richardson.

Miss Celia Lucas is spending a holiday with her father at their home on Sooke Road.

Miss Eva Jones of Strawberry Vale has been staying in Sooke as the guest of Mr. and Mrs. A. E. Percival.

Mr. and Mrs. H. Wilson of Victoria are visiting their former parents at their home on Murray Road.

Miss Vera Soward has left for her home in Vancouver after spending several days with the Misses Helgeson.

After a fortnight stay in Duncan Mr. Porteous has returned to the Muford Inn.

Mrs. F. Norton has returned home after a six weeks' visit to relatives in Summerland.

Miss Evelyn Clarke of Shirley is spending a week at the home of her friend, Miss Mollie Richardson.

Where To Go To-night

As Advertised

THE SCREEN
Capitol—"All Quiet on the Western Front," starring Lewis Ayres.

Columbia—"Gold Diggers of Broadway."
Dominion—"Al Jolson in 'Mammy,'" Playhouse—"Double Cross Roads," with Lila Lee.
Crystal Garden—Swimming and Dancing.

IRVING BERLIN WROTE SONGS FOR JOLSON'S "MAMMY"

Al Jolson returns to burnt cork for at least a part of his latest Warner Brothers picture "Mammy," which is now showing at the Dominion.

Jolson made his first great success as a black-faced singing comedian, and it is in this happy choice of a medium that he is seen first in this Playhouse picture—a picture made for laughter—with the star at his uproarious best.

No one enjoyed the return to the old minstrel show background as much as Jolson himself, who at one time was a minstrel. He dug into his old bag of tricks and brought out the gags that used to get him the biggest laughs and the most applause. These he revamped and modernized and used with obvious relish.

STIRRING PLOT IN PLAYHOUSE FEATURE STARRING LILA LEE

One tense situation follows another in "Double Cross Roads," Fox all-talking Movietone of regeneration, in which Robert Ames and Lila Lee portray two of the leading roles at this Playhouse Theatre to-day. The story concerns the adventures of a young crook who decides to reform and is helped in realizing his hopes by a young girl with whom he falls in love.

The other featured players are Montagu Love, Ned Sparks and George MacFarlane. Alfred Werker directed.

FINDS CONDITIONS IN CANADA BETTER THAN LAST SLUMP

Britain's Trade Commis- sioner Makes Survey of Canadian Situation

London, Aug. 6.—Prepared by P. W. Field, Great Britain's senior trade commissioner in Canada, an exhaustive survey of Canadian conditions to May 31, 1929, has just been issued in London as a British Government document. The commissioner says it should be a heartening consolation to reflect that Canada was well content with its place in the world four years ago. The last depression was from 1920 to 1924. A careful analysis of the situation reveals the fact that conditions are infinitely better than during that period.

The statement is made that the Dominion naturally is feeling the effects of some of the vital changes occurring in the commercial and industrial life of the world. These include the substitution of machinery for manual labor—for example, in the grain fields—the changes in distribution methods, and reductions in production costs.

NEW PRODUCTIVENESS

The report records the fact that for the fourth year in succession, the Canadian mining industry in 1929 reached a new high record output. It also states that although the tobacco industry is restricted to certain areas, it enlarges the national revenue by approximately \$35,000,000. The production of wheat, livestock, dairy products, wool, petroleum and fish and furs is also reviewed.

STEEL TRADE

Considerable space is devoted to the iron and steel industry, which, Mr. Field says, was founded upon the conversion of imported semi-finished material.

Under the close influence of this specialization in the United States, the mills of Canada have had to make way, and this they are doing with success.

AUTOMOBILE POSSIBILITIES

Dealing with the motor car situation, it is recorded that business is serving in Canada to stabilize the demand for cars, a great proportion of factory output being devoted to this ever-growing sales outlet. The proportion in the United States is already 45 per cent, with over a million cars registered in Canada. Replacement demand alone in the near future should ensure a domestic market for 150,000 automobiles a year, even if the proportion of car owners does not increase. Foreign markets are absorbing a constantly increasing number of vehicles from Canada—160,000 in 1929. This replacement and export ensure fairly steady business for Canadian factories.

TEXTILE PRODUCTION

The capacity and production of Canadian textile mills have increased in the past two years by about 10 per cent but this increase is not distributed evenly throughout the industry. The notable increases have probably taken place in the silk weaving and full-fashioned hosiery establishments. It is, therefore, estimated that the textile manufacturing industry for the past year produced about \$215,000,000 worth of goods.

TO COMPETE WITH BRITISH SILK

The silk manufacturers are experimenting with silk and trade experts believe that in due course Canadian mills will offer keen competition to United Kingdom and foreign firms in this market. This is to some extent the history of the cotton industry in Canada. The cotton mills have gradually improved their production over a period of years, so that now they are able to supply their own market with low and medium grades and some fine qualities.

The advance in civil aviation, in the opinion of the commissioner is taking the form of a gradual increase in the number of aircraft operators and in the number of uses to which aircraft have been put, and is apparently a healthy growth. This differs from the condition that exists in the United States during 1929, when there was exceptional activity in all lines of business connected with aviation. This was followed by a depression in the industry.

Dealing with the trade situation, Mr. Field points out that the total expenditure of Canada per capita on imported goods last year was \$123, of which less than \$20 were expended in the United Kingdom and more than \$88 in the United States. Commenting on these figures, the commissioner says that while the imports of certain raw materials, semi-manufactured goods and parts are included in these figures, they reveal the trend of Canadian import trade, and a serious consideration for United Kingdom manufacturers and merchants.

UNIQUE SITUATION

Mr. Field points out that substantial industrial output and continuity of a powerful competitor are two factors which are not met in any other Empire market. They should not be underestimated by United Kingdom manufacturers, he says, and continues, "the time has passed for the treatment of the market by long-distance methods. It is no longer possible to sell goods by correspondence."

LEGGE URGES FARMERS TO FEED SURPLUS TO CATTLE

Chicago, Aug. 6.—Chairman Legge of the Federal Farm Board urged in a radio address here that farmers reduce their wheat acreage and help use the surplus by feeding it to cattle.

"If this is done," the chairman said, "it will have a very material influence in bringing about a substantial improvement in wheat prices."

"Presence of severe drought has reached a point where the shortage of feed and forage threatens serious losses to livestock, growers and dairymen over a wide area."

"The hay crop is the smallest in years. In some sections the corn will be reduced 40 to 50 per cent or even more. Hay stocks are being fed out and the prospect for sufficient winter supplies of feed is not encouraging. Under these conditions, there is a danger that the farmer will dispose of beef cattle at a sacrifice. If this movement is not headed off, it may mean that a large number of animals in poor condition will be forced upon the livestock market and still lower prices will result."

No Danger
Visitor—That is a beautiful clock. Is it insured?
Manager—No, but it is absolutely safe. There are more than a hundred people working on this floor, and every one of them is watching it.

Victoria Bowlers Dominate Play In Capital City Tournament

THE SPORTS MIRROR

ONE NIGHT not long ago in Queensboro Stadium, New York, Kid Chocolate sat at a few rows from the ring where Jackie "Kid" Berg and Henry Perlick, one of Kalamazoo's Fighting Twins, were engaged in a junior welterweight struggle. When the bout was over, Berg was the victor, but not more than half over the "Kid" got up and walked out. A few nights later at the same club, Berg was among the spectators watching Kid Chocolate battle Luigi Quadrini. He also sauntered out before the bout was half over.

We are hoping that when Berg and Chocolate meet at the Polo Grounds to-morrow night, neither will walk out of the ring prematurely, unless the other is lying frozen from a solid thwack on the button.

Berg and Chocolate might have been matched on some other date if it hadn't been for a hunch of Luigi Quadrini, pilot of Chocolate. Luis insisted on that day because it is the second anniversary of Chocolate's first bout in the United States. Chocolate drew exactly \$35 for whipping Eddie Ross at Mitchell Field in that bout.

A matter of five years ago, Sid Terris looked like the greatest prospect among the lightweights. He made his last stand, or fall, with Pete Nebo in New York recently. Terris is happily married to his boyhood sweetheart; he has saved a large share of his earnings; he is all "washed up" as a fighter, and the best part of it is that he knows it.

After a few weeks' rest since he took a shattering from Young Corbett III on July 4, Young Jack Thompson, welterweight champion, is ready to get back into harness. But not with his title at stake. No sirree! He's taking over-the-weight matches with fellows not in the class of McLarnin, Fields and Corbett.

"I don't suppose Thompson will give me a title match, now that I've beaten him three straight times," said Rafaela Gloriano, who is Young Corbett III, the Fresno southpaw. "I guess I'll have to wait until somebody takes the title from him, and then maybe the new champ will give me a break."

A sports chronicler recently wrote: "The Senators lack it, but they can play ball." O'Goofy agrees that they may lack "it," but they have "That" as long as Art Shires is around.

"When I broke into the league, we used to score from third base on flies to the outfield," remarked a 1910 performer. "Now they walk across the plate and tag him. The ball has forced the outfielders into the next county."

The actions of a pitched ball are influenced by gravitation, explains a well-known league pitcher. He falls to tell what influences so many of them to sail into the bleachers.

An infielder who interferes with a batter runs a criminal case, alleges the runner goes on his way rejoicing. But a catcher who tackles a man coming home, sits on him and rubs his nose in the dirt until the outfielder runs with the ball to tag him out, is a hero and gets nice write-ups in the papers.

With a wave of his arm, Ike Boone, Brooklyn Robins' outfielder, alleges his bleacher adrift whenever a fly ball is hit into left field. The evidently has read Dryden, who penned the line, "Silence in times of suffering is the best."

Victorio Campolo refuses to fight at Queensboro A.C. on the grounds that he is of such importance that all his matches should be enacted in Madison Square Garden. Quick, doctor, an aspirin to relieve our aching heads.

Boston recently gave Rabbit Maravalle a few. Several clubs in the National League favor giving the Rabbit at least thirty days.

Tony Lazzeri has played second base, shortstop and third base for the New York Yanks. It ought to be new to you, when they give Tony an indicator and let him call balls and strikes.

Zaro Aglio, the 156-year-old Turk, need have no fear that his record of long life will be broken by the twenty-six-year-old American who recently shot 170 holes of golf in fifteen hours on the hottest day of the year.

THE BEST WAY TO THROW A WOMAN OFF THE TRACK IS TO TELL HER THE TRUTH.

LOTTA HOKUM

IT ISN'T THE BEAT—IT'S THE HUMILITY.

Burnside Has Two Women's Rinks In Semi-final Round

Mrs. Pass and Mrs. Stewart Skip Squads to Victory; Kerrisdale and South Vancouver Win Other Two Places; Victoria Doubles Teams Win; Five Teams From Victoria Club Into Fourth Round of Men's Doubles; W. J. Coo of C.P.R. Surprises by Victory Over Harry Wright in Singles.

The Burnside Bowling Club placed two teams in the semi-final round of the ladies' rinks in the Capital City bowling tournament when their two strongest fours, skippered by Mrs. Pass and Mrs. Stewart, swept aside all opposition in the second round bowled yesterday afternoon. The other two semi-finalists are from outside points—Kerrisdale (skip Mrs. Whyte) and South Vancouver (skip Mrs. Hodgkinson), having advanced by virtue of their well-earned victories in the second round.

HOCKEY IS DEFEATED IN SECTIONAL

Local Tennis Star Loses to Henry Prusoff of Seattle By 1-6, 6-0, 6-1, 7-5

Harrison and Hoogs Loom Up as Doubles Team to Represent Pacific Northwest

Seattle, Aug. 6.—Bradshaw Harrison, Tacoma, and Bob Hoogs, Eugene, Ore., loom as the likely doubles team to represent the Pacific Northwest in the National doubles tennis tournament at Forest Hills, New York, later this month. The two net stars yesterday easily reached the finals in the Pacific Northwest sectional tournament held in conjunction with the Washington State tennis meet here, when they defeated George McKinley and Preston McDonald, Seattle, 6-1, 6-4, 6-1.

In the women's doubles, Mrs. D. Harrison and Hoogs were heavy favorites to defeat Leslie and Nordstrom, because of their numerous victories in Northwest tournament this season.

Mel Dragna and Henry Prusoff, both of Seattle, will tangle to-day in the sectional singles final for the honor of representing this section at the Southern California tournament in Los Angeles. Dragna eliminated Jack Rhine, Seattle, 6-2, 6-4, 7-5, and Prusoff beat Ross Hocking, Victoria, 1-6, 6-0, 6-1, 7-5.

In the third round of the Washington tournament, favorites advanced with little effort. Harrison defeated John Hendrickson, Seattle, 6-1, 6-1; L. Driscoll, San Francisco, disposed of Jim Wing, Seattle, 6-1, 6-1, and Prusoff downed Vic Thompson, Seattle, 6-1, 6-2.

In the women's division, Miss Charlotte Miller, Berkeley, eliminated Ruth Nield, Seattle, 6-0, 6-3, and Miss Alice Marble, San Francisco, trounced Velma Rittner, Victoria, 6-0, 6-1.

Singles scores yesterday included: John Edwards, Victoria, defeated Kenneth Swenson, Seattle, 6-2, 6-2.

Perov, San Francisco, and Miss Marie McLab, Vancouver, defeated Edith Tough, San Francisco, and Carolyn Fringes, Tacoma, 6-4, 3-6, 6-4.

Townsend is a heavy favorite, punched Brown from post to post, but was unable to get the cagey easterner beyond the groggy state. Although Brown was staggered in the first, second, sixth, ninth, and ten rounds, he went to the canvas only once. In the sixth he was down for a nine count.

Townsend took every round except the fourth and seventh which were even.

HANGS ON

Only Brown's ring generalship saved him from hitting the canvas for a ten count. He frequently hung on, at times so tightly the referee found it difficult to pry him away.

In the ninth Townsend nailed Brown with a great right to the chin and sent the Philadelphian into the ropes, apparently on the verge of a knockout. Bouncing back and wrapping his arms around Townsend, however, Brown held on until the bell.

Tommy Bowden Is Leading Hitter

Catcher for Elks Captures Batting Honors in Amateur League With .425 Mark; Jack Bacon Wins Prize for Most Stolen Bases; Morgan Hits Most Home Runs.

Finishing the eighteen-game schedule with an average of .425 Tommy Bowden, snappy catcher of the Elks, carried off the batting honors for the season in the Victoria Senior Amateur Baseball League. By topping the league Bowden will receive the prize donated by Two Jacks' Dope.

Besides leading the hitters Bowden had the splendid fielding average of .988, making only one error out of seventy-one put-outs and eight assists. Jack Bacon, catcher for the Sons of Canada, was the leading base pilder with twenty-four stolen bases to his credit. He wins the prize donated by the Victoria Sports Goods Company.

Home run hitting honors were lifted by Jack Morgan of the Elks with seven to his credit. Morgan also led in sacrifice hits with seven.

Brouseau of the Eagles led in hits with twenty-six to his credit. Hilton of the Sons led in run scoring, crossing the plate twenty-three times.

THE AVERAGES

The complete batting and fielding averages follow:

Washington Club Proving Nemesis To N.Y. Yankees

Out of Fifteen Games Played This Season Senators Have Sent New York Down to Defeat Twelve Times; Two Teams Split Double-header Yesterday; Ruth Hits Forty-first Homer; Athletics Lose to Boston; Brooklyn Wins Thrilling Ten-inning Tilt From Giants; Cubs Win.

But for the presence of the Washington Senators in the American League the New York Yankees might be up there fighting the Philadelphia Athletics for the leadership. As it is, however, Babe Ruth and company are battling in third position, ten games back of the champions and not much chance of gaining ground as long as they are scheduled to play Walter Johnson's Senators.

Fifteen times this season the Yankees and Senators have met and on twelve of the occasions Washington has emerged victorious. The Yanks succeeded in breaking the jinx yesterday but not until the Senators had won their seventh straight by taking the first of a double-header, 5 to 4. Babe Ruth hit his forty-first home run but that didn't help much when Walter Johnson's batters got busy. Charlie Ruffing was largely responsible for the Yanks 7 to 1 triumph in the curtain game. He put his team out in front with a homer in the second inning and then let the opposing batters pound down with nine scattered hits.

Athletics lost a 4 to 3 game to the Boston Red Sox. Phil Todd's home run tied the count in the eighth and then Durst connected with a double to lead off a one-run rally in the ninth that proved good.

Detroit defeated the Cleveland Indians, 5 to 4. Three of Cleveland's four runs were unearned.

The New York Giants and Brooklyn Robins furnished another one of their spectacular contests in the National League, Brooklyn finally winning 9 to 8 in ten innings.

The Chicago Cubs kept pace with the Robins, scoring three runs in the ninth to defeat the St. Louis Cardinals 5 to 4.

Fred Frankhouse held the Phillies to 2 hits as the Boston Braves gave Philadelphia a 6 to 3 defeat.

NATIONAL LEAGUE

Brooklyn, Aug. 6.—The league leading Robins captured a spectacular victory over the Athletics yesterday, scoring three runs in the tenth to gain a 9-8 decision and an even break in the four-game series.

Brooklyn went into the ninth leading 4-1, but the Athletics' Luce weakened with two out and the Giants tied the score. Bill Terry climaxed the rally with a homer that sent three runs across the plate and drove Luce to the bench. Heimach was called in, but one double sent him away and Ray Phelps took his turn. Phelps was hit hard in the tenth, the Giants scoring three runs to win the game.

Chicago, Ill., Aug. 6.—Grover Cleveland Alexander, once one of baseball's greatest pitchers, has been released for the third time this season.

He was notified by the "Toledo American Association Club yesterday evening that his services were not desired. He had never even worn a Toledo uniform.

Old Pete was released by the Dallas team of the Texas League several weeks ago after being taken out of the team. He previously had been given his freedom by the Philadelphia Nationals. Then the Toledo Mud Hens signed him up. Alexander was to have pitched his first game at Toledo Sunday. Photographers were there, even sound movies, and the park was filled with thousands who attended in order to greet the former world-series hero in his much ballyhooed comeback attempt, but he failed to appear.

It was learned that Alexander came here Friday on his way to Toledo and that he had been under the care of a nurse ever since. She declined to say who was with him or what the nature of his illness was. She merely said as was a very sick man.

OVER the WALL

Continuing his sensational batting pace, Bill Terry, Giants' first baseman, yesterday moved into the National League and baseball's Big Six batting leadership. With five hits in six trips to the plate, he boosted his average six points more than Chuck Klein, who dropped three points when he failed to hit.

O'Doul got a hit, but failed to improve or lower his average, while Simmons dropped a point when he got only one hit in four times up. Cochrane moved into the Big Six column as Gehrig got only one hit in a double-header.

Ruth also had a poor day, getting two hits in seven times at bat.

Great Enthusiasm As British Team Sails For Hamilton

Old Country Team Fit and Confident Of Winning Honors

Flower of Britain's Athletic Youth, Including Lord Burghley, One of World's Most Famous Performers, Off in Quest of Championships at British Empire Games; Sir Harry Barclay in Charge of Squad; Large Delegation Wishes Team "Bon Voyage."

Canadian Press

Southampton, Eng., Aug. 6.—If the potential success of the first Empire games at Hamilton, Ontario, can be measured by the enthusiasm which marked the departure of the British team for Canada to-day, then imperial athletics has become, through the vision, enterprise and generosity of Canada, as much a factor in imperial unity as cricket. By the successful inauguration of these games Canada will immediately place herself in line with the great sporting units of the Empire such as Australia and South Africa.

The platform at Waterloo, where the boat train was taken was the rendezvous for many happy groups of athletes and their wives, sweethearts and friends.

Sir Harry Barclay headed the British athletic party comprising the flower of Britain's athletic youth, including that radiant figure, Lord Burghley, and Roger Leighwood, son of the chairman of the British Empire games committee. With Sir Harry there were W. M. Barnard, honorary treasurer of the

Amateur Athletic Association, A. S. Turk, vice-chairman of the Southern Counties A.A., E. A. Holt, champion ship secretary of the A.A.A., and Dennis Lyons, ex-president of the Midlands A.A.

Photographers were busy a few minutes before the train left, snapping pictures of the various groups.

TEAM SET

Sir Harry Barclay, in an interview with Reuters' special correspondent, who is accompanying the team to Hamilton, said all his athletes were fit and were going out to try their hardest to bring home the honors of the games to the Mother Country. He added Reuters to convey to Canada and the city of Hamilton the team's warmest appreciation of the inspiration, generosity and hospitality which had attended Canada in their gallant effort to inaugurate the games.

Glorious sunshine attended the departure of the team at both Waterloo and Southampton. Many friends were in waiting here to wish the team a final "bon voyage." The liner Duchess of Athol set out for Montreal amid the happiest conditions. The only note of disappointment was struck by Mr. Leighwood, who received a message that Lord Burghley, the Lancashire weight wrestler, had suddenly developed a septic knee and had withdrawn from the team. He was expected to be a certain winner at Hamilton.

Won Canadian Title

LEW RUSH

crack Victoria cyclist, who captured the Canadian quarter-mile championship at the Royal Athletic Park on Saturday afternoon, defeating such prominent riders as Harold Davies, Jim Davies and Leo Marchiori, all of Vancouver. Rush is one of the best prospects developed in Victoria since Bill Feden left to join the professional ranks. Rush, along with Don Stewart and Murray Patrick, will go to Vancouver on Friday to compete in the meet there at which the Canadian mile, three-mile and third of a mile titles will be at stake.

Former Champions Pass From Picture In Canadian Golf

Don Carrick, "Happy" Fraser and Frank Thompson All Beaten in First Round of Canadian Amateur Championship at Toronto; Nine Canadians and Seven U.S. Players Remain in Running; Eddie Held, Defending Champion, and First U.S. Star to Win Title, Wins Easily.

Canadian Press

London Hunt Club, Ont., Aug. 6.—The titleholder and one former titleholder were among the sixteen survivors in the thirty-second annual Canadian amateur golf championship who started this morning in the second round of thirty-six-hole match play. Nine Canadians and seven U.S. stars are still in the running.

Eddie Held of Great Neck, N.Y., 1929 champion and first U.S. player to win the championship, was drawn against Carroll M. Stuart of Montreal while Ross Somerville of London, 1926 and 1928 champion, faced Eric Russell of Toronto.

Three former titleholders were eliminated in the first round yesterday. S. S. Merritt of Noble, Pa., defeating Don Carrick of Toronto, 1925 and 1927 champion; Somerville eliminating C. "Happy" Fraser of Montreal, 1922 champion; and Stuart defeating Frank Thompson of Toronto, 1921 and 1924 champion.

A. A. Weir of Winnipeg, who completed the British open championship this year, is the only survivor from the west of the Great Lakes, and meets to-day Jack Cameron of Montreal, who yesterday defeated Dan Kennedy, and Fred J. Wright of Newton, Mass., and J. Raymond Ferguson of Philadelphia. Ryan and Ferguson tied with cards of 144 in the thirty-six-hole medal round Monday.

Other second-round matches were: William D. Taylor, Montreal, vs. Nicol Thompson Jr., Toronto.

Gordon Taylor Jr., Toronto, vs. Fred Robinson, Toronto.

The first match did not start until 11 o'clock eastern daylight saving time.

All-U.S. matches were between J. Wood Platt of Philadelphia, and Francis W. Ryan of Birmingham, Mich.; Frank Connolly of Hillsboro, Mich., and Merritt, and Fred J. Wright of Newton, Mass., and J. Raymond Ferguson of Philadelphia. Ryan and Ferguson tied with cards of 144 in the thirty-six-hole medal round Monday.

B.C. ELEVEN SCORES SECOND EASY VICTORY

Defeat Saskatchewan By 231 to 44 in Western Canada Cricket Tournament

Alberta Lucky to Beat Manitoba; B.C. and Alberta Decide Leadership To-day

Calgary, Alta., Aug. 6.—After winning two games each in the western Canada cricket tournament, Alberta and British Columbia will clash to-day to break the deadlock.

On Tuesday Alberta defeated Manitoba 192 to 191, but just managed to keep on even terms with the coast province as in another five minutes the contest would have been declared a draw. There was only five minutes left to play when the tenth Manitoba wicket fell.

At the same time British Columbia has had an easy time defeating Saskatchewan, last year's champions, scoring 231 runs, while the defenders were scuttled for 44 runs.

RHODES IS STAR

H. A. Rhodes, the British Columbia bowler, who uses a trick slow ball of the "goosy" style, again proved the undoing of opposing batsmen, taking six wickets for eleven runs only. Parkinson was the only one of last year's champions to reach double figures and he totaled but 11.

The coast eleven batting first, got a break when Sparks counted 41, after being missed in the field on four different occasions. Grant and Reed were the other two batsmen to make substantial contributions to the score.

Ball proved the most successful bowler for Saskatchewan, securing five wickets for eighty-five runs.

DODGES WIN FROM BUICKS

Keep in Running For Play-off Berth in Garage League With 8 to 6 Victory

Dodges kept in the running for a play-off berth in the Garage League yesterday evening by outscoring Buicks 8 to 6 at the Royal Athletic Park. The victory Dodges climbed on to even terms with their victims.

Dodges won the game in the sixth when they pushed three runs across the plate to wipe out a one-run lead enjoyed by the Buicks up to this point. Ed Miles then snuffed out a last inning rally on the part of the losers by fanning Pennell, Buick's catcher.

Eastwood scintillated in the field with two running catches to his credit.

The score by innings:

Dodges 0 2 1 1 3 0-8
Buicks 0 4 2 0 0 0-6

Batteries—Miles and Wilkinson; Kenney and Pennell.

On Thursday night the Buicks oppose the Fords in a replay of a previous drawn battle.

Rainville Loses To Junior Champ In U.S. Tourney

Southampton, N.Y., Aug. 6.—Richard W. Williams, U.S. veteran Davis Cup star, Philadelphia staged a comeback yesterday by defeating Clifford Suter, of New Orleans, U.S. intercollegiate champion, 7-5, 6-7, 6-3, in the second round of the national singles tournament.

Ryan, Grant Jr., Atlanta youth who recently won the U.S. national clay court championship, eliminated Maurice Rainville, Canadian star from Montreal, in the second round play, 6-3, 6-4.

It was Grant's second straight conquest scored at the expense of the player who sprang an upset yesterday by eliminating the Irish ace, Lytle Rogers.

Eight "Y" Athletes To Seek Caledonia Game Championships

Five Seniors and Three Juniors Will Strive for Honors in Vancouver Highland Meet on Saturday; Art Chapman Figured to Win in Junior Jumps; Fell Favorite for Hurdles; Cunningham Will Run Half-mile.

Eight pairs of spikes on the feet of Victoria Y.M.C.A. sprinters and jumpers will dig into starting holes and sawdust in the Hastings Park track and field courses on Saturday when the local contingent strives for honors in the Caledonia games, it was announced by Archie McKinnon, physical director of the Y.M.C.A., this morning.

For several weeks Coach McKinnon and Cyril Connerton, local sprint ace now out of competitive action with a strained tendon, have been putting the local lads through their paces in preparation for the Highlanders' meet, and hope to see them make good runs in all events entered.

THE TEAM

Included in the team flying the red and white colors of the Victoria "Y" will be Chuck Cunningham, fast half mile; Len Nicholls, quarter-mile and broad jump specialist; Art Fell, hurdler and jump man, and Lew Clark, century and turling dash entry. Four fast youngsters, who left to-day for the high school Olympiad in Vancouver tomorrow and Friday, will complete the team. Bud Winlow, Art Chapman, Lynn Patrick and Wilson Menzies will compose the latter addition.

With the exception of Patrick, the boys will be running in the junior division and are expected to place well.

CHAPMAN EXPECTED TO WIN

Art Chapman, rangy high and broad jumper, is considered the city's best bet for honors in his division, and should also finish among the leaders in the senior class. Winlow will run the junior quarter, while Patrick will compete in the senior 100-yard and 220-yard handicaps.

Menzies is also expected to show his speed in the latter event.

Although there are numerous than last year's entries, the senior men are figured to be in good shape, and should be able to return to the city with some of the laurels in their class.

Chuck Cunningham is counted an equal footing with any provincial competitor in the 880 yards, and should give Eddie Gensung, Washington State star, a good run for his money if the U.S. ace makes the trip.

Len Nicholls has been covering plenty of ground in broad jumps and hop steps, and will doubtless stand a good chance in his division. He will also run in the 440-yard sprint, and will take the same distance in the medley relay if Victoria sends a team into the event.

GOOD IN HURDLES

Art Fell has been showing great improvement over his early season form, and is counted on to make his mark in the hurdles. He will also compete in the three jump events.

Lew Clark has entered the century handicap as well as the 220-yard straight and handicap events, and should be able to hold his own against the mainland competition.

If the Capital City team enters the relay he will run the furlong.

In addition to the regulars, Jimmie Feden and Vigen Bapty, Victoria High School sprinters, may stay over after the Olympiad and fill in the relays if they are needed.

However, the Victorians will have to fight all the way to gain a place in the events. Vancouver, track-minded from the number of high class competitions it has seen during recent years, has been developing its runners and field men in leaps and bounds, and will certainly offer plenty of opposition to the Island contingent.

Just how the juniors will come out after the strenuous two-day high school meet, remains to be seen, but they have plenty of stamina and should give good accounts of themselves.

ELKS MEET JOKERS IN SECOND TILT

Senior Amateur Ball Clubs Meet To-night in Second Game of Play-off Series

Elks Are One Game Up; Stickney and Steel Will Be Opposing Pitchers

In the second game of the series between the second and third place teams to decide which club will meet the Sons of Canada in the final series for the championship of the Senior Amateur League, the Elks and Jokers ball teams will meet to-night at the Royal Athletic Park at 8.15 o'clock.

The Elks won the first game on Monday night and a victory this evening will give them the series. Another bumper crowd is expected to watch the teams perform.

The Elks have selected the veteran, Wade Steele, to handle the pitching duties for them. Last Friday Steele turned the Jokers back by a 6-1 count, holding them scoreless until the last inning.

Steele will be opposed by Wes Stickney, southpaw, who suffered defeat at the hands of the Jokers on Friday. Stickney has started against the Elks several times this season but has yet to chalk up his first victory over the enterprising tribe. He is hoping to perform that feat to-night.

NEW UMPIRE

When the teams take the field a new umpire in the person of Phil Wiper, of Nanaimo, will be calling the balls and strikes. Simpson will be handling the bases. Piper was secured after Doug Myers had resigned.

MEETS HOLLIDAY

JUMBO DAVIES

hard hitting Victoria youngster, who will be facing the stiffest test of his career when he stacks up against Harvey Holdridge of Vancouver in a ten-round bout Saturday night at the Variety Theatre. This is the main event on a card being presented by Joe Bayley. Four other bouts will be offered.

WATSON LEADER OF LOCAL BOARD

Percy Watson was elected president of the Victoria Local Board of the B.C.A.A.U. at its annual meeting held yesterday evening in the Y.M.C.A. Gordon Woolridge was elected vice-president and Walter S. Maguire was re-elected secretary. Watson and J. C. Downs were appointed delegates to the provincial body with Maguire as alternate.

The relationship between amateurs and professionals in different lines of sport in the province was discussed at some length, but no action was taken in this connection pending the next meeting of the B.C.A.A.U.

SOFTBALL

Games scheduled for the remainder of the week in the Victoria and District Softball League follow:

WEDNESDAY
Saanich "A" vs. Rustlers, Central Park. Umpires, Bob Whyte and Forde.

THURSDAY
New Method Laundry vs. McDowell and Mann, Lower diamond, Central Park. Umpire, S. Redgrave.

POODLE DOG CUP
Friday
McDowell and Mann vs. Rustlers, Central Park, upper diamond, Umpire, B. Whyte.

View Royal vs. North Saanich, North Saanich grounds. Umpire, E. Stock.

J.E.A.A. vs. Hillcrest, Work Point Barracks. Umpire, S. Redgrave.

VANCOUVER AND CITY "Y" TRACK TEAMS TO MEET

Vancouver and Victoria Y.M.C.A. track and field warriors will clash on the field of battle for athletic honors in an inter-association meet at the Royal Athletic Park on August 16, according to word from Archie McKinnon, physical director of the local association, this morning.

And when the smoke of battle rolls away, the coaches of the respective teams are expected to behold the foremost runners of the Y.M.C.A. in British Columbia among whom will be some of the best in the province.

The "Terminal City Y" has been pushing its track and field prospects along as fast as their spikes could carry them and has the idea it can clean up on the Capital City squad.

However, the Victoria coaches haven't been letting the grass grow under their feet and will send out a strong team to meet the invaders.

The programme will include races over 100, 220, 440, 880 yards, one and three miles and two relay courses of a mile, for medley men, and quarter mile for sprinters.

FIELD EVENTS

High and broad jumps, shot puts and discus contests will also be staged along with several novelty stunts being planned for the intervals.

The meet will be a thorough test of the strength of the rival organizations and should leave little doubt in the minds of the followers of the sport as to which is the best equipped with human speed material.

In addition to settling the issue between the associations the events will be used to benefit crack local men, since all proceeds from the meet will be devoted to the track teams of the Victoria association when other expenses have been met.

Tickets for the grandstand may be secured at the office of the Victoria association.

BOX REPLIES AVAILABLE

Letters addressed to the following boxes are available at The Times Office on presentation of box tickets. Maximum replies are obtained by advertisers who follow up replies promptly.

Box 565, 591, 1401, 1500, 4788, 4900, 4921, 4941, 5012, 5062, 5093, 5110.

BIRTHS

DRUMMOND—To Mr. and Mrs. J. Drummond, nee Beatty, 633 Admirals Road, a daughter, on August 4, at Jubilee Hospital.

HARDIE—To Mr. and Mrs. D. B. Hardie, nee Ishister, Banberton, V.I., on August 4, at Jubilee Hospital.

GILES—To Mr. and Mrs. W. H. Giles, Goldstream, a son, on August 5, at Jubilee Hospital.

CRUMP—To Mr. and Mrs. A. E. Crump, nee Noye, 2663 Orchard St., a son, on August 5, at Jubilee Hospital.

CARD OF THANKS

Mrs. Wyatt and family wish to thank Dr. McEwen, sisters and nurses of St. Joseph's Hospital, C.B. Veterans' Hosp., employed of the Standard Steam Laundry and the many friends for their sympathy and kindness in the loss of a loving husband and father also for the many beautiful floral offerings. Funeral services at 2 p.m. at St. Joseph's Hospital. Major R. Harrop, Mr. F. Beech, Petty Officer Rose, Mr. Hurst and Mr. Roe.

IN MEMORIAM

BATE—In memory of a loving husband and father, Thomas Bate, who passed away Aug. 5, 1929.

Just a thought of sweet remembrance, just a memory fond and true, just a token of affection, just a heartache still for you. Just a sigh for the olden moments, just a smile of love anew, just a tear in silence falling, and a yearning just for you. Inserted by his loving wife and children.

BURNSIDE HAS TWO WOMEN'S RINKS IN SEMI-FINAL ROUND

(Continued From Page 10)

year's finalist and was looked upon by many to come through with the title honors this year. However, he found Coo playing at top form, and was unable to hold him after the first few ends had been rolled.

J. Johnston of Burnside and R. W. Wilson of the C.P.R. battled neck and neck throughout their match, and the large gallery found the game highly interesting and very exciting. The Burnside finally breezed through with the honors, but only by a lone

point, the score reading 15-14 in his favor.

SEZ HUGH

"That new preacher denounces sin, but he ain't goin' to mention no particulars until he finds out which ones is considered respectable here."

Oil Wells and Private Clubs Rob Los Angeles Of Her Famous Public Bathing Beaches

Southern California's beaches, heralded throughout the country by glowing advertisements, are rapidly becoming unavailable for public use and now Los Angeles is wondering what to do about it.

Next to sunshine, Southern California sands occupy the highest position in the press-agent blue book. Obviously if the city hasn't any beaches a lot of tourists are going to be disturbed, if not downright wretched.

Of course there still are some stretches of sand open to the public—but now the great drive for oil is in progress, and the beach is being steadily encroached upon by private clubs, to the exclusion of the public.

The latest blow is the quest for oil in the ocean. Half a dozen wild cat companies already have drilled wells on private beach property fronting on the beach and now these companies are seeking permits to drill up to 5,000 feet out from shore.

And it seems that they will win the coveted permits—because the playground of recreation is the beach. The wells would necessitate pipe lines and piers from the beach and, though the companies deny the possibility of leaking oil dirtying the waters, there are some persons who

contend that such leakage cannot be prevented.

At present the drilling is in progress only at Venice and Playa del Rey, two beaches within the city limits. The promoters seek the right to drill on city-owned property with returns to the city on royalty basis.

Private beach property owners, seeing depreciation in real estate values following upon unsightly oil wells, got an injunction against the city preventing leasing of public beach. No final decision has been reached by the courts yet.

Now the state laws reserve lands below the mean high tide line for the public. But there is a way to beat that, as beach clubs and home owners have discovered—much to the consternation of a flock of citizens who have the necessary \$150 to \$200 to join the club. Fences are erected bounding the property and extending to the tide line. One may bathe in the public beach, but the lucky few who decide to wander down the beach within the private confines—even if he sticks to the public strip at the water's edge—is summarily ejected by husky guards.

Movie stars and many other wealthy people occupy beautiful homes north of the city of Santa Monica, a beach city adjoining the beaches of Los Angeles. Here beach property has been sold to the water's edge. There is a

White and Peterson (Penticton), 11. Parker and Phillip (Vic.), 16. v. Garmeson and Bryce (Vic.), 13. Williams and Wright (Vic.), 3. v. Mayne and Wright (Vic.), 20. Clarke and Meadows (Bur.), 11. v. Tutthill and Renwick (Vic.), 20. Ormiston and White (Vic.), 10. v. Collinge and Owens (Vic.), 24.

The following is the draw for the fourth round of the men's doubles. These games will probably be rolled sometime Thursday.

Wells and Edwards (Burnside) vs. Reid and Hodgkinson (Vic.). v. Dawson and Blundell (Victoria) vs. Phillips and Parker (Victoria). Mayne and Wright (Victoria) vs. Tutthill and Renwick (Victoria). v. Johnson and Johnston (Burn.) vs. Collinge and Owens (Victoria).

Fisheries may go to one of these three members-elect.

BENNETT'S TASKS
Hon. R. B. Bennett is expected to combine the direction of the Department of External Affairs and the Department of Finance with the post of Premier. With only nine days intervening since polling day, the allotment of a number of the portfolios is understood to be still undecided.

The report continues that Maj-General A. D. McRae of Vancouver, chief Conservative whip, will eventually go to London as Canadian High Commissioner.

Old Country Cricket

London, Aug. 6.—Gloucestershire won an English county cricket match from Somerset, at Clifton, by nine wickets. Sensational bowling by Gloucestershire yesterday, following a timely century by Wally Hammond Monday, made the win possible. Somerset, who made 128 in their first innings, got only 23 yesterday, Parker taking six wickets for 29 runs and Strickland four for 27. Gloucestershire scored 181 and 23 runs for one wicket.

The following matches were abandoned on account of rain:
Worcestershire vs. Derbyshire, at Birmingham; Kent vs. Hampshire, at Canterbury; Surrey vs. Nottinghamshire, at the Kennington Oval; Worcestershire vs. Essex, at Worcester.

The match between the Australians and Glamorganshire, at Swansea, was left drawn with scores of Australia 248 and 71 for one wicket (declared); Glamorgan 99 and 197 for seven wickets.

Lancashire beat Yorkshire, at Manchester, on the first innings. Scores: Lancashire 170 and 114 for six wickets (declared); Yorkshire 125.

Leicester won from Northamptonshire, at Northampton, in the first innings. Leicester scored 170 and Northampton 114.

West Coast and Alaska Vessels Sail To-night

With a good list of passengers, most of whom are round-trip tourists, the C.P.R. coast steamer Princess Maquinna will sail from the Belleville Street docks to-night at 11 o'clock for ports along the west coast of Vancouver Island as far north as Port Alice. Since her arrival here on Monday the Maquinna has been in Vancouver loading and discharging freight for the coast.

The other west coast steamer, the Princess Nora, is at present on a voyage to Port Alice and is expected in port on Friday.

Among the passengers who will sail to Alaska from Vancouver to-night aboard the steamer Princess Alice will be W. M. Neal, general manager of the western region for the Canadian Pacific Railway. Mr. Neal, whose offices are in Winnipeg, traveled from the prairie city in his private car "Rupertland," attached to the regular Transcanada. The Alice will have a good list of passengers when she sails north to-night.

Tourists from New York, Chicago, Philadelphia and other eastern cities as well as from California make up the list aboard the Alice.

Form of contract can be seen and specification and forms of tender obtained at this Department, at the offices of the District Engineer, Post Office Building, Victoria, B.C.; Victoria Builders Exchange, 2509 Prior St.; Victoria, B.C. and The Building and Construction Industries Exchange, 34 West Pender St., Vancouver, B.C.

Tenders will not be considered unless made on printed forms supplied by the Department and in accordance with conditions contained therein.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Minister of Public Works, equal to 10 per cent of the amount of the tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd amount.

By Order, N. DESJARDINS, Secretary, Department of Public Works, Ottawa, July 22, 1930.

Two Liners Due This Week From Oriental Ports

Wireless advice was received by L. D. Cheatham, local agent, this morning from Capt. A. J. Hosken, master of

the liner Empress of Russia, announcing that the ship will arrive at the William Head quarantine station on Saturday morning at 5 o'clock from

Wakayama, Japan. The ship will bring the liner alongside the Rutherford pier about 7 o'clock. There is a good list of passengers aboard the Empress this voyage, several of whom will leave the ship at this port and proceed to Seattle.

Another ship inbound from the Orient is the American Mail liner President Jackson, which will arrive here early Friday night on regular schedule from the Far East. The Jackson will remain here until midnight before leaving for Seattle to complete her trans-Pacific voyage.

TO-DAY'S GRAIN MARKETS

(By Branson, Brown & Co. Limited)
Winnipeg, Aug. 6.—Wheat: After opening about one cent higher the wheat market took on a very strong tone with prices advancing steadily throughout the session. To-day, with only occasional pauses due to some profit taking by nervous longs and at the top, prices were about 1/2 cents over the close last night.

Sentiment was decidedly bullish with some public participation on the long side of the market being in evidence while some important short lines were being taken in. One of the main features was the light offerings, the pool were not selling and some of the large interests who have been accumulating wheat around bottom levels were not unloading even on the bulge, but apparently were quite confident of their position.

Chicago and New York interests were good buyers early of December and May futures, which helped to carry the market upward, but during the latter part the trade appeared to be largely local and market with some selling against day offers.

The strength in corn with high temperatures still in sight over the belt with every indication of further deterioration in the crop, combined with many unfavorable reports coming in from the prairie provinces due to rust and drought were the main features to the sharp advance in prices.

There was a good demand early for all grades cash wheat and top grades were worth 1/4 to 1/2 premium over yesterday's close, and the 1/2 to 3/4 advance in futures was dropped out of the market temporarily. There were scattered loads worked for export overnight, but a good business has been worked out of this market the past two days.

Flour situation about unchanged. Near the close there was a certain amount of profit taking and selling, against which caused the market to ease off about 1/4 cent from the top and closing figures were 1/4 to 1/2 up.

Coarse grains: These markets were all sharply higher and were following the lead of wheat and corn. Actual business in the cash market was only moderate, but eastern Canada continues to take small lots of oats and barley.

Holders of oats futures are not pressing the market and offerings are scarce. Oats closed 1/4 to 1/2 higher, barley 1/4 higher and rye 1/2 to 3/4 higher. Flax prices moved upward easily, but trade volume was only light, closing about 10 cents higher. Liverpool due about 1/4 to 1/2 up on Winnipeg.

(By Branson, Brown & Co. Ltd.)
Chicago, Aug. 6.—Wheat: General commission house buying swung into the market to-day and shorts had more competition when they tried to cover than expected. Huge further upturns were scored in prices and all the profit-taking, hedging and sales against weekly and daily offers were easily absorbed.

The market looked a little strained on the extreme advance and it will take active buying to maintain the rallies at this time. However, with the change in general conditions due to the record drought in this country, the evidence that Europe has a much smaller wheat supply and that Canadian reports show more bullish with tendency to lower estimates we doubt if wheat has any real recession from this level.

It is extremely significant that primary receipts are falling off so decidedly. It will be interesting to see if the country movement of wheat increases materially at this level. Primary receipts to-day were 3,381,000 bushels, against 5,845,000 a year ago. Local receipts only 234 cars. Fair export business reported.

Weekly Canadian report was regarded as more bullish. We think pessimism has gone out of the grain trade situation and that a healthy market condition will prevail from now on, with purchases suggested on set backs. Some wide price swings, however, are to be expected.

Corn: Confirmation of damage to the crop with the recent rains failing to effectively relieve the drought to any extent, gave the market another tremendous upturn. Given market kept pace with the futures, or more, and there was a fair shipping demand, while country offerings were a little larger.

Upwards of 150,000 bushels, the upturn in futures catching resting orders. Receipts here estimated at fifty cars with primary arrivals 450,000 bushels against 1,304,000 bushels a year ago.

The advance in corn has been greater than most of the bulls looked for, and would be inclined to look for some wide price turns at this level, and be in shape to catch the market on good setbacks.

Oats: Advanced about as rapidly as corn, the feed grains situation combined to be more fully realized. Oats demand was fair and offerings are light. Receipts, however, at the moment are fairly liberal.

Rye: Scored big advances. European crops estimated at about 60,000,000 bushels longer than a year ago. Wheat situation will govern rye prices.

Corn Skyrockets On Damage Panic

Sizzling weather in the corn belt to-day shot corn prices up as much as 7 to 8 cents a bushel in one of the hottest markets seen in years. On top of its fast climb of the last week or so, September 10-day spurted from 93 1/2 and did not stop until the closing gong rang and the market was at 101 1/2.

Wheat in both Winnipeg and Chicago was drawn up five to six cents a bushel more by the corn run.

Regina, Aug. 6.—Cutting of wheat is reported to-day at Kamask, with the crop too bad to pay for twine. One sample of wheat from Benson, Sask., was so bad it was not worth cutting. Thousands of acres in the Stoughton, Lampson and Benson districts are the same.

One big farmer came in town this morning and said he had a good crop before the rust ruined it.

Canadian weather to-day: Saskatoon, heavy shower during the night, part cloudy; 70; Regina, clear to cloudy; 68; Moose Jaw, clear to cloudy; 70; Edmonton, clear; 65; Calgary, clear; 65.

Canadian forecast, mostly fair and warm to-day with a few scattered showers.

Chicago, Aug. 6.—The Chicago Tribune to-day says: "Bullish sentiment has materially increased in grain during the last few days and there is more disposition to work for higher levels. Traders realize that values are low and that it is for the best interest of all to maintain a higher level."

It is said that stock traders realize that the low prices for grain are against an advance in security values and are giving wheat and corn, particularly wheat, more support.

"A shortage of 500,000,000 bushels in the corn crop, as estimated by Secretary Hyde, is in line with the views of Chicago crop experts and statisticians, as well as those who know what extremely high temperatures, with drought of four to nearly eight weeks can do for a corn crop."

"Trade has broadened and there are a lot of professionals who are active on the buying side on all breaks. It is advised by traders that at any time there are good general rains, a selling movement and a break in prices is to be expected. They say that all such declines should be taken advantage of to buy December or May corn."

Chicago, Aug. 6.—The corn crop has suffered further marked deterioration with damage extending into all states which grow an appreciable amount of grain. In Ohio the crop is deteriorating at an alarming rate and much is beyond recovery with general conditions decidedly poor. In Indiana, recent local rains have helped corn in the north, but the drought is further intensified in the southern half with corn badly damaged. Manitoba fields are drying up with tassels burned and improvement possibly only on late plantings. In Illinois, damage is increasingly great from north to south and is extremely heavy in the southern half of the state, while the early crop is entirely gone in northern and western Kentucky. In Missouri only late corn in a few sections, principally on river bottoms, would make a fair crop with rain soon.

BUYING INCENTIVE STOCK LACKING IN MONTREAL MARKET

Montreal, Aug. 6.—With only a few exceptions prices generally closed lower in to-day's session of the Montreal Stock Exchange.

Brazilian Traction and International Nickel finished with declines, the former down 1/2 at 30 1/2, while the latter dropped 1/2 at 22 1/2.

Canadian Car issues were in good demand, but closed with losses of one-half point each at 34 and 27.

Other price changes included: Dominion Bridge off 3 at 61 1/2, Massey-Harris off 1/2 at 36, National Breweries up 1/2 at 37 1/2, Shawinigan off 1/2 at 60 1/2.

While there is virtually no selling pressure in any section of the list, there is also absent any incentive in the way of constructive news in trade and industry that would create a buying power. Considerable hesitation is being caused by the present wheat situation in which a new crop appears in sight on the heels of a large carry-over, recently announced.

The situation, however, is not without its brighter side, which includes large construction projects planned in most sections of Canada, and perhaps even more important, the huge power development underway in the Dominion.

In the next few years the amounts spent not only for development but also plans to utilize such power, will total many millions of dollars, and should provide sound ground for a feeling of confidence in the prospect which faces Canada.

WHITNEY
LETTER

City Branch, Brown & Co. Limited

New York, Aug. 6.—Whitney of Wall Street Financial Bureau says to-day: MINOR DIPS BEFORE HIGHER PRICES

"What setback was expected in yesterday's session bordered on dullness rather than actual recession in price, and in doing so, constituted a slightly more bullish aspect than would have been the case had prices actually backed off. This dullness, plus a tendency during the closing minutes of yesterday's session to shade prices from tops of the day, was a development well in line with expectations, and of insufficient significance to warrant any modification or qualification of the opinion expressed here that the market is emerging from a period of accumulation and about to engage in the initial steps of gathering force for advancing prices.

"As pointed out before, you can hardly expect that a market which is so close to its actual period of accumulation will display anything like the low points and the sharp point where the shorts who have been lulled into a sense of security by the appearance that 'you will always get time to cover' have to get busy on the buying side all at once. Each decline in the market is perceptibly falling short of the previous bottom, which simply means that short sales made in periods of weakness, and that is where most of them are made, are successively having withdrawn from the opportunity to cover.

"We are distinctly in a market where it is easier to sell stocks than to buy them, and the thing to do is not to follow the easy side, which is certainly true for a reason.

"The normal advance in call rates yesterday is of no importance, as money is plentiful and anxious to obtain employment. I believe that neither money rates nor broken jobs will play an important part in the market for some time to come, except to the extent that they are both providing a propitious background for it to register considerable advance in reflection of a business turn.

"The important thing at the moment is that the market is well under control, gradually creeping up, overcom-

Ford Motor
Stocks Spurt

Ford Motors of England showed a gain of three to four points on the New York Curb, caused by demand believed to come from banking interests.

Ford Canada also moved.

The buying of these Ford issues is apparently based on the failure of the European automobile makers to form an Anti-American tariff cartel, designed practically to boycott automobiles made by American firms.

Formation of such a cartel would have affected Ford of England adversely, it is pointed out, and removal of the threat apparently has put the stock in a buying range for some interest.

Another attempt will be made in October to form an Anti-American tariff cartel, designed practically to boycott automobiles made by American firms.

Formation of such a cartel would have affected Ford of England adversely, it is pointed out, and removal of the threat apparently has put the stock in a buying range for some interest.

Formation of such a cartel would have affected Ford of England adversely, it is pointed out, and removal of the threat apparently has put the stock in a buying range for some interest.

"Marriage Without Love Is Always and Under All Conditions a Risky Experiment—It Takes Love and a Lot of It to Make Matrimony Endurable," Declares Dorothy Dix

A CORRESPONDENT asks: "If a man, loving one woman, marries another, will such a marriage be happy? What are the chances that he will learn to love his wife? If the situation was reversed—if a woman who loves one man marries another—would your answer be the same in her case?"

I should say that the man who marries one woman, loving another, would be just about as likely to be satisfied with his wife as he would be with a flivver when his heart was set on a Rolls-Royce.

It may be an awfully good, useful, reliable little tin flivver; it may get the biggest possible mileage out of every gallon of gasoline and negotiate the roughest roads without a balk; it may be much more suited to his needs and his purse than the de luxe car was and, anyway, he could get the one and he couldn't get the other. But, all the same, he never came a rap for it. It never raises a thrill in his breast. He never appreciates its many virtues because it lacks the streamline effects and gorgeous upholstery that ravished his fancy in the other and that his soul craves.

So with wives. You can't substitute one woman for another with a guarantee that she will be just as good and fill the place of a wife just as well as the man's first choice, because nobody knows just what quality it is in a woman that makes her the perfect mate for some particular man.

Because Susan is amiable and healthy and a good cook and thrifty is no sign whatever that she would exactly suit John and that they would get along in peace and harmony together. On the contrary, her many virtues may bore him to extinction and send him philandering as a life-saver, whereas Maud's very frivolity would hold him bound to her to the end of the chapter.

It is what a man sees in a woman, not what is really there, that matters. And if she does not look good and desirable to him before marriage, she will come to seem unendurable to him after marriage. For marriage is the great dispeller of illusions. It is no fosterer of dreams. It is the terrible awakener.

It is frequently said, with grim humor, that marriage is the only cure for love, but this isardonically true only when men and women marry those for whom they have a temporary passion. Matrimony is death to romance and not a great deal of affection survives the wear and tear of everyday living, of the clash of different temperaments, of fights over bills and personal habits, of the disenchantment of kimono and curl papers and cold cream and soiled collars and three days' stubble of beard.

But while marriage may kill our love for the one we do marry, it does not slay our passion for the one we do not marry. Instead, it breathes into it fresh life and strength, for it puts the beloved one among the unattainable blessings on which we waste our lives in vain longings and yearnings.

If John had married Amariyllis, he would have found in her a thousand faults and weaknesses. She would have got on his nerves many a time and oft. They would have had the usual number of family spats and she would have told him what she thought of his conduct when he came home late at night and he would have expressed himself freely about her extravagance. He would have seen her stripped of the chiffons in which his imagination had draped her, just an ordinary human woman, with all of the shortcomings of her sex heavy upon her head.

But just because he did not marry her, she will be his ideal woman as long as he lives and he will be perfectly certain that if they had married they would have lived in an earthly paradise without a flaw in their bliss. And, worse still, it is inevitable that in his thoughts he should continually compare the woman he did marry with this paragon of perfection and contrast his scrappy home with the blissful abode he might have had if he had only got the woman he wanted instead of having taken the woman he could get.

Therefore, the man and woman who cherish a hopeless passion are foolish to think that they can cure it by marrying some one for whom they have no real love. The remedy only aggravates the malady.

Of course, not even the most sentimental can spend thirty or forty years in continuous billing and cooing, and time when even the most romantic love settles down into a Darby and Joan friendship.

But, curiously enough, this companionship, to be perfect and complete must have underneath it the smoldering fires of a love that was so strong in youth that it will keep the hearthstone warm through all the long years of old age.

Enforced companionship does not make for comradeship. It is only those to whom we are drawn by the mysterious attraction of the heart to whom we open the secret doors of our souls. I do not believe once in a thousand times that a man or woman ever falls in love with his or her wife or husband if he or she entered marriage without love. Respect, gratitude, friendliness he or she may come to feel, possibly, but often it is hatred for a jailer, for marriage without love is nothing but a prison against whose bars one beats one's self continually.

When one sees how easily men fall out of love after they are married and how domesticity irks them, it is obvious that they need to start into matrimony geared up to the highest pitch of passion. With a woman the case is not quite so bad, because she has more compensations in a material way to gain from matrimony than a man has and, like the canary, having been bred in a cage she is better contented to have her wings clipped.

Moreover, all the circumstances of a woman's life tend to concentrate her interest on her husband, and so if a man is good and kind to her, she makes better shift to be content with him than a man does with a makeshift wife.

But marriage without love is always and under all conditions a risky experiment. It takes love and a lot of it to make matrimony endurable.

Insurance Men Of Continent To Hold Convention

H. G. Garrett, superintendent of insurance in British Columbia, has received an invitation from Hartford, Conn., to the sixty-first National Convention of Insurance Commissioners to be held in that city the week of September 8. Mr. Garrett is one of approximately 60 officials invited to the conference from the Dominion of Canada and all the provinces, all the commonwealths in the United States and from Alaska.

In connection with the convention of the insurance commissioners there will be held on September 9 the sixth annual Connecticut Insurance Day Convention, to which the visiting commissioners are invited.

Among the subjects which will come to the foreground during the business sessions of the commissioners will be automobile liability responsibility laws and the taxation of insurance companies.

Lord Birkenhead, Gains Strength

London, Aug. 6.—A bulletin issued at 9.15 a.m. to-day said the improvement in the condition of the Earl of Birkenhead, British political figure, who is ill with bronchitis pneumonia, had been maintained and that he was better.

DROUTH AREAS TO GET RELIEF

Washington, Aug. 6.—President Hoover said to-day that no stone would be left unturned to relieve suffering in drought-stricken agricultural regions by the Federal Government.

Close co-operation between state and federal government officials will be given, although what measure of assistance will be used is not yet decided.

The seriousness of conditions in some localities is great, especially along the Mississippi River from the Gulf coast to the Atlantic Coast. The Department of Agriculture is conducting a survey of the situation along with the Federal Farm Board and a report is anticipated by next Monday.

Stinson Aircraft Lead New Licenses

Wayne, Mich., Aug. 6.—Of the sixty airplanes licensed by the Department of Commerce for the week ending July 19, thirty, or 50 per cent of the industry's total were issued for Stinson Junior planes, figures compiled by the Aeronautical Chamber of Commerce show.

Twenty-six of these planes were Stinson Juniors equipped with 210 h.p. Lycoming engines and four with Wright engines.

For the previous week, ending July 12, sixty-eight planes were licensed by the department, of which twelve or approximately 20 per cent were Stinson Juniors.

MANY YACHTS ANCHOR HERE

Inner Harbor Basin Proves Attractive Place This Summer For Visiting Yachtsmen

The inner harbor at Victoria presented a gay scene yesterday afternoon with several big leisure yachts anchored in front of the Empress Hotel. All the boats had large parties aboard and the dinghies and gasoline boats plying between the larger craft at anchor and the Causeway float with white-capped men and jauntily dressed women made a picturesque scene reminiscent of one of the great yacht harbors in San Francisco or New York.

The largest ship at anchor yesterday was the *Norah* of San Diego, whose passengers are enjoying a stay in Victoria. While they are motor-ing and playing golf on one of Victoria's fine courses.

Next in size to the *Norah* was the *Dreamer* of Seattle, a frequent visitor here. She dropped anchor about 4 o'clock and left during the night for a short cruise before returning to Seattle.

Crossing the Straits from Port Angeles in fifty-five minutes the sea-

going tug *Elwha* arrived in the harbor at 4:30 o'clock yesterday afternoon with officials of the Washington Lumber Company aboard. The *Elwha* is powered with a 175 horsepower gasoline engine and she steamed into the harbor yesterday looking very much like a speed boat with spray dashing from her bow. She left on her return across the Straits last night at 9 o'clock. The *Elwha*, although a heavy sea-going tug, has yacht-like accommodations and appointments and is furnished very much like a big pleasure boat.

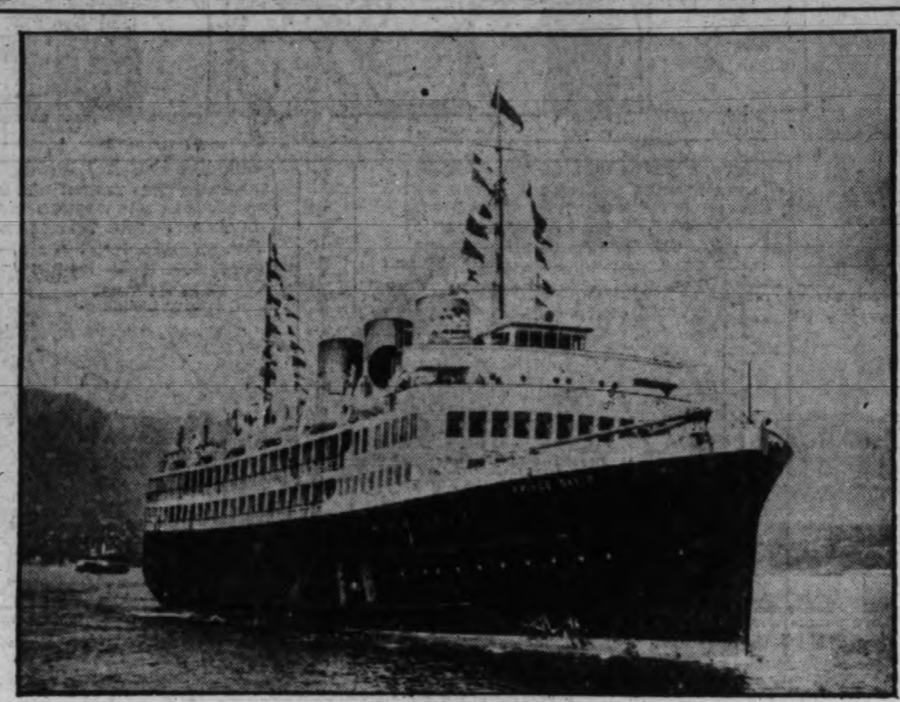

The *Lady Helen* of Tacoma and the *Vendovi* of Port Madison were other visitors here yesterday and this morning, coming over with guests from both places aboard. The *Lady Helen* this morning shifted to the Puget Sound Navigation Company's dock to load stores.

Local yachts in the harbor yesterday were Capt. J. W. Troup's big craft *Cruiser* and the *Sheju*, recently built here.

Spoken By Wireless
August 5, 8 p.m.—Shipping.
EMPEROR OF RUSSIA, Yokohama to Victoria, 145 miles from Victoria.

KORONA, Victoria to Sydney, 459 miles from Victoria.
YAMUO MARU, Vancouver to Yokohama, 1,200 miles from Vancouver.
YOKOHAMA MARU, Vancouver to Yokohama, 900 miles from Vancouver.
AFRICA MARU, Vancouver to Yokohama, 920 miles from Portland.

August 5, 12 noon—Weather.
Breeze—Cloudy; light; southeast: 30.06;
61 sea, smooth.
Fog—Part cloudy; light; east: 30.10;
57 sea, light swell.

WILL ARRIVE HERE ON FIRST TRIP SATURDAY

SS. PRINCE DAVID

Latest addition to the Canadian National fleet on this coast which will be seen in Victoria on Saturday when she arrives in the early afternoon with a complimentary party aboard from Seattle. The new ship will commence her tri-city run between Victoria, Vancouver and Seattle next Tuesday. The above picture of the David was taken as she steamed into Vancouver harbor last Sunday on her arrival from England.

now only anxious to get home to relate to relatives and friends their wonderful experiences across the Pacific.

GOOD PASSENGER LIST

The *Hikawa Maru* had a good list of passengers aboard this voyage. There were 100 travelers in all classes, twenty-seven passengers leaving the liner as she departed. Capt. H. Akiyoshi, master of the ship, reported a smooth passage across the ocean from Yokohama, which port was left eleven days ago. The weather had been good. The skipper said, and on account of the large list the passengers had had a most enjoyable and lively trip.

Among the passengers in the first cabin were E. H. Stafford, principal of the Pacific School in Seattle, and H. A. Sears, principal of the Washington School also in Seattle, returning from a six weeks' tour through Japan as guests of Japanese, whose children they have taught in Seattle. Mr. Stafford and Mr. Sears formed many opinions of the Orient while visiting in Japan and came home convinced that the trade possibilities between the Far East and the Pacific Coast of North America are very great. People along this coast should visit the Orient, they both believe, and so gain at first hand, knowledge regarding the life over there. Mr. Stafford and Mrs. Sears accompanied their husbands and had a wonderful time in the shops and stores of Japan picking up curious old pieces of ivory and real Oriental hand-woven silks.

OTHERS ABOARD

Also aboard the *Hikawa* this morning were Professor H. Takashima, president of the Oriental University at Tokyo, who will visit Seattle and deliver a number of addresses there on the invitation of the Japanese Association of the Pacific Northwest. S. Sawa of the Togo Besshi Kaisha, on a business trip to Canada and the United States, and Henry Okuda, president of the Oriental Trading Company and the Oriental Express Company of Seattle, returning to his home after a business and pleasure trip to Japan.

The *Hikawa* also had a good cargo, including 4,150 bales of raw silk, one of the largest of such shipments to the coast. The ship was loaded with 100 tons of general cargo and 150 bales of mail. The *Hikawa* came aboard Race Rocks this morning just as the first red streaks of dawn were rising above Tseai Island. She dropped anchor in Parry Bay for medical inspection at 4:30 o'clock, and then proceeded to Ogdan Point piers at 5:30 o'clock, arriving in the Sound port at 6 o'clock this afternoon.
